Very good; but the most scholastic and literary female is Miss *Ann O. Tator*, and the best natured woman extant is Miss *Ann I Versary!—Oswego Times.*

And the worst tempered of these ancient ladies, is *Ann I. Mosity.* The balance of the list will be searched out by *Aunty Quarian.*

HOOK AND LADDER COMPANY No. 1.—At a meeting of Hook and Ladder Company No. 1, held at their house in Auburn, Monday evening, January 26, the following Preamble and Resolutions were unanimously adopted:—

Whereas, The Firemen in this State, in the discharge of their duties, protecting the property and lives of its citizens, sacrifice their health, labor and wearing apparel, and are allowed therefore exemption from Jury duty only. And whereas, the Militia of this State, who are seldom if ever called upon to make such sacrifices or undergo similar hardships, are not only exempt from Jury duty, but also individually from Taxation on $500 worth of personal property—Therefore:

Resolved, That it is eminently just and proper that Firemen should receive for their services like benefits and immunities with the Militia.

Resolved, That Hook and Ladder Company No. 1, of the city of Auburn, earnestly request of the representatives in the Senate and Assembly, to introduce a bill in their respective bodies exempting Firemen (in addition to the immunities now allowed,) from taxation, individually, on personal property to the amount of $500.

Resolved, That a copy of the foregoing Preamble and Resolutions be forwarded to the Member of Assembly from this District.

In order to accomplish what is proposed in the foregoing resolutions, it is earnestly requested that the Fire Companies in every City and Village in the State take immediate action thereupon, and forward their communications to Albany.

THE CHILDREN OF HARMON O'HARA.

Auburn, Jan. 26.—AFTERNOON SESSION.—The Court opened for hearing motions. The pannel of Grand Jurors not being full, the absentees were noted, and those present dismissed until to-morrow morning at 9 o'clock.

A variety of motions were argued, and among others a petition was presented by Warren T. Worden, Esq., that the disposition of the children of Harmon O'Hara, and Eliza Ann O'Hara be referred to Chas. C. Dwight, Esq., of this city, to enquire whether the said Harmon O'Hara be the proper person to take care of the said children; if not, who is? Thos. Y. Howe, Esq., read a petition praying that C. C. Dwight enquire whether Henry O'Hara be a proper person to take the care of said children. Geo. I. Post, Esq., stated to the Court, that Eliza Ann O'Hara had made application for, and obtained a bill of divorce from Harmon O'Hara, and that at the time the decree was entered for their separation, Mrs. O'Hara was told that there had been provision made for the disposition of the children, and therefore, her counsel suffered the matter to rest, and he was not aware it had received attention until this application was made; he trusted the court would order a reference to Mr. Dwight, to enquire whether Harmon O'Hara be a proper person to take charge of these children; if not, then enquire whether Mrs. Eliza Ann O'Hara be a proper person to take charge of them.

The Court remarked, that from the shortness of the time for consideration, the Bench could not have a full acquaintance with the matter; but directed the Clerk to enter an order for the reference; and directed the referee to enquire as to the propriety of Harmon O'Hara having the care of the children. If not a proper person, then to enquire whether Eliza Ann O'Hara be a proper person—if not—then to enquire who is a proper person, that will take charge of the children, and report to this Court, on Saturday next.

HAIR RESTORATIVE.

WE CALL THE ATTENTION OF ALL, OLD and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color and keep it from falling to extreme old age, in all its natural beauty. We call then, upon the bald, the gray, or diseased in scalp, to use it; and surely, the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's *Hair Restorative* in New Haven, received the following letter in regard to the Restorative a few weeks since:

DEEP RIVER, Conn., July 23, 1855.

MR. LEAVENWORTH—*Sir*: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the 1st of April last and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf, and new Hair began to grow, it is now two to three inches in length *where it was all off*. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here.

Yours, with respect, RUFUS PRATT.

[*From the Jersey City Telegraph.*]

WHAT IS IT FOR—THE WOOD'S HAIR RESTORATIVE?—Is a question asked daily by hundreds. We answer without hesitation or fear of contradiction, that it is the only article known which will do all it promises for the human hair. *It will renew its growth—it will stop its falling—it will restore its natural color!* It is not a Hair Dye, but a speedy and efficacious Restorative.

Important News from Central America.

New York, Jan. 27.—The Tribune publishes a letter from Nicaragua dated Castillo, Jan. 1st, which gives further particulars of the Costa Rican version of affairs in that region. The writer says:

"We have about 500 fine fellows from the mountains of Costa Rica now in fort San Carlos. They have two 24 pounders; two brass 12 pounders; three brass 4 pounders; plenty of ammunition and provisions, and firm resolution to hold the river or perish to a man. We have all the steamers except the San Carlos, which, I expect, will be over with the passengers in a few days. We have a strong garrison at Serapiqui with cannon, &c., also at Castillo where Costa Rica has inaugurated a Governor.

"Last night Gen. Mora and 300 men were placed in fort San Carlos—that fort having been taken the night before without firing a gun. We have accomplished a complete and rapid succession of surprises, until we are in possession of the whole river from Punta Arenos to San Carlos."

The plan of operations is such as to insure that Walker will desert the country or fall a victim to starvation in less than three weeks. Gen. Montenago is in Chontaler.

CATARRH!

CAN IT BE CURED, OR ONLY PALLIATED?

Will Nostrums or "Sundry" Cure It?

YOU HAVE TRIED THEM and found them only a hateful *cheat!* But *doctors* should be able to cure it. You have applied to them, and their remedies have also failed. What does it mean? It means this—they do not understand the *true* cause, character, and cure of the disease! This has been the only reason of failures. But
IT CAN BE CURED!
Medical research has disclosed the fact. Dr. GOODALE, of Watertown, N. Y., is the only fortunate inventor of a *positive*, a *radical* cure! Hundreds of victims to this loathsome disease would cheerfully certify to a perfect recovery by the use of his remedy—but as the best and only certificate he asks is, a trial of it.
The author of this invaluable Remedy bears with him, and exhibits, testimonials of his high medical reputation, and of his unqualified contempt for every species of *quackery*. These testimonials are from sources of unquestionable responsibility. His—
