

Local and Miscellaneous.

ACKNOWLEDGMENT.—The senior takes great pleasure in acknowledging his obligations to Lewis E. Carpenter, Esq., for the choice relief from the prison in London Tower, where Sir Walter Raleigh was incarcerated.

—We had the pleasure of seeing today the Austrian Eagle and Fire Lock, the former from Salsburgo, the latter from Magenta, presented to Col. A. Carpenter and Lieut. Col. Richardson, by Governor Seward. They will have a great value as mementoes of those brilliant struggles of France and Sardinia, with the power of Napoleon.

CASH, CASH.—From and after this date, I shall do a strictly cash business. All those that can trade on this principle, I shall be pleased to have their custom. Those that cannot, I don't want. E. D. Hudson. Auburn, Jan. 3, 1860.

Oratory Circuit.—Tuesday, January 3, 1859.—Present, Hon. A. T. Knox, Justice.

The forenoon was consumed in *Ex parte* motions and in contracting and arranging the calendar, which contains but forty-eight causes.

The Judge charged the Grand Jury in the afternoon.

—We would call the attention of our readers to the advertisement of Halper's impending Crisis, which will be found in another column of our paper. It is said to be selling at the rate of from 12,000 to 18,000 copies per week, and the demand is rapidly increasing.

HOOK AND LADDER.—At an annual Election of the Logan Hook and Ladder Company No. 1, held at their rooms, January 3d, 1860, the following officers were elected for the ensuing year, viz: Foreman, F. C. Woodruff; 1st Assistant, A. W. Johnson; 2d Assistant, J. Y. Hoagland; Secretary and Treasurer, W. H. Meaker.

CORRECTION.—Our cotemporary of the Auburn Advertiser, as well as ourselves, undertook to make a moderate but accurate estimate of the number of people out on Friday last at the reception, and put them at 10,000. Perceiving that persons from neighboring cities estimated the number at 15,000 we have reviewed our data and become satisfied that we were far below the mark.

The count was made whilst the procession, or rather the masses, in State and Genesee streets were moving, leaving out the people who were screened by windows and those who stationed themselves in Exchange street in the first place, making in all, at least five thousand men, women and children. We have no doubt now that the reception was witnessed by at least 15,000 persons.

Last Saturday, a meeting of the Cayuga County Teachers' Association was held at Talcott's Corners. It was called to order by the President, Messrs. Elias Lester and Seth Anthony were appointed to prepare addresses for the next meeting, and to read Essays, Misses O. J. Chamberlayne, Mary A. Goodrich and Sarah Raymond. Appropriate addresses were then read by C. J. Thompson, of Cayuga, and J. S. Bristol, of Auburn. After a short discussion, which followed, the meeting adjourned, to meet at Fleming's on Saturday in February.

Many thanks are due to the citizens, who welcomed and gratuitously entertained the teachers and friends.

C. J. THOMPSON, Pres't. Seth Anthony, Sec'y.

NEW COAL BURNER.—As the demand for any article arises, no matter of what nature, we have an immediate supply. But a few years ago such a thing as a coal-stove of any description was entirely unknown in our community. Not a family in the city could then be induced to dispense with wood in heating their buildings; but as wood became somewhat scarce and it had been found that coal was as cheap an article of fuel as wood, a yard was immediately started, and in less than six months, nearly, if not quite one half of our people were burning coal in one or more rooms in their dwellings, and all our places of business were warmed with the same material. Then came the necessity of stoves which should radiate the greatest amount of heat from the smallest quantity of fuel, and as year succeeded year, we have been given some new invention in coal burning stoves. The last invention of this kind was made by our townsman, Munson C. Cronk, who has just obtained a patent therefor. The principle of his invention consists in feeding the fire from the bottom, and thereby consuming all the gas, which by the old method escaped through the pipes and chimney. We do not mean to be understood as saying that Mr. Cronk is the original inventor of a process whereby the gas, emanating from the burning coal is consumed, as we know there are many inventors who claim to have made this discovery. It is only the process by which the stove is fed with coal which accomplishes this result, that a patent has been granted. It consists in a feed box in which is a moveable grate; when it is necessary to replenish the fire the feed box is moved from under the fire, and the grate lowered in the box by a single movement of a lever, the box filled with coal and by an opposite movement of the lever raised beneath the fire and the grate raised, thus carrying the new coal directly under the fire, where it is mixed in with the burning coal and consumed. Whatever gas is generated must of necessity pass through the fire in its upward course, and is thus made to add its quota to the fuel used. It is particularly convenient for cooking stoves and is destined to come into general use.

The New York Daily News is in demand and should be sent to the Lunatic asylum for treatment. Its latest madness is caused by the failure of Gov. Wise to make political capital for the Democracy out of his military demonstration against a purely imaginary enemy.

A friend of mine, who is the mother of a fine six year old boy, and who endeavours to bring him up in the way he should go, requested him, not long since to read to her the ten commandments, and state to her after each one had been read, whether he had broken any of them or not. So the little fellow commenced the reading. He went on bravely through the catalogue until he reached the one reading, "Thou shalt not commit adultery," and looking up to his mother with a self satisfied expression of countenance said, "well, ma, I don't chew nor smoke tobacco, and so I haven't broken that one."

RESOLUTIONS IN REGARD TO THE DEATH OF JUDAH PERRY.—At a meeting of the Board of Trustees of the Auburn Savings Institution, held at their banking office in the city of Auburn, on the evening of Dec. 31st, 1859, John Olmsted Esq., Vice President, in the Chair. It was stated that the object of the meeting was to consider and determine upon the appropriate action of this Board in view of the decease, and on the occasion of the funeral of the President of this Institution. On motion, David Wright, Esq., and Dr. S. Willard were appointed a Committee to draft and present appropriate resolutions. The Committee presented the following, which were unanimously adopted:

It having been announced to this Board that the President of this Institution had departed this life on the evening of yesterday; be it Resolved, That in the death of our venerated President, Charles B. Perry, we feel that this Institution has lost an efficient officer, and each member of this Board a valued friend.

Resolved, That we desire thus publicly to bear witness to his sterling integrity of character, to his kindness of disposition, to his genuine goodness of heart, to his unspotted humor, and to the fidelity with which he ever discharged his duties as one of the Trustees and the President of this Institution.

Resolved, That as a mark of respect for the memory of the deceased, this Board with the officers of the Institution will attend his funeral in a body.

Resolved, That the Secretary cause a copy of these proceedings to be communicated to the family of the deceased, and furnished to the city papers for publication.

JOHN OLMSTED, Vice Pres't. Chas. P. Wood, Sec'y.

DEPARTURE OF THE OSAGE.—The N. Y. Spirit of the Times, puts in the following good word for the crew:

The crew in many parts of this world, is considered a marauder on the farm, and the gun is perseveringly used for his extermination. The most able writers on ornithology, and others who have studied his habits, agree that instead of being a robber and a pest to the farmer, he is one of the most faithful and greatest benefactors. He consumes in the course of the year vast quantities of grubs, worms and noxious vermin; he is a valuable scavenger, and clears the land of offensive masses of decaying animal substances; he hunts the grass fields, and pulls out and devours the underground caterpillars, wherever he perceives the signs of their operations as evinced by the wilted stalks; he destroys mice, young rats, lizards and serpents; lastly, he is a voracious sentinel about the farm, and drives the hawk from its enclosures, thus preventing greater mischief than that of which he is himself guilty. It is chiefly during seed time and harvest that the depredations of the crew are committed; during the remainder of the year we witness only his services, and so highly are those services appreciated by those who have written of birds, that we cannot name an ornithologist who does not plead in his behalf.

A MONUMENT TO J. FENIMORE COOPER.—The Cooperstown Democrat states that a monument to Cooper is to be erected in that town at a cost of \$5,200. It will be located in the beautiful Lake Wood Cemetery, between Lake Ontario and Mount Vision and Prospect Rock, and near that of the "Panther scene."

We understand that the Board of Management of the New York Central contemplate rebuilding the Grain Elevator at Buffalo, recently destroyed by fire, the new structure to be entirely of iron.

ROBBING. A gold watch in every city and county of the State for sale with other Choice Wares, Silks, etc., by the Holiday, by H. A. YATES.

BY TELEGRAPH.

Governor Parker's Message. Heretofore, Pa. Jan 4. Gov. Parker's message refers to the Harper Ferry difficulty, and says it is gratifying to Pennsylvania to believe that the citizens of the Commonwealth did not in any manner participate in that unlawful proceeding, and to know that when some guilty parties were arrested within its jurisdiction, they were promptly surrendered. He adds, while entertaining no doubts as to our Republican institutions which have been carried forward to their present exalted position in the world will continue to the latest generation it is the part of wisdom and patriotism to be watchful and vigilant to guard a treasure so precious. Let a spirit of harmony, good will and national fraternalism be cultivated among the people everywhere, and the disturbing elements which temporarily threaten the Union will assuredly pass away.

Pennsylvania central position with three millions of free men, enables her to say with emphasis to the plotters of treason on either hand, that neither shall be permitted to succeed, that it shall not be in the power of either to disturb the perpetuity of a Union cemented and sanctified by the blood of our patriotic fathers. At every sacrifice the constitutional rights of the people and the States shall be maintained—equal justice done to all, and these States united forever.

The Governor congratulates the Legislature that the State debt is decreasing at the rate of a million yearly, resulting mainly from the sale of the canal.

Washington, Jan. 4.—House.—Mr. Washburn, of Illinois, called attention to a letter he had received from a contractor in Rockville, of that State, in which the writer states, that the state of things which exists owing to the failure to pay the mail contractors cannot be imagined. Mr. Washburn wished to say to the contractors that he did not consider himself responsible for their distress. W. W. Washburn, of all responsibility.

Republican Convention. Concord, N. H., Jan. 3.—The State Republican Convention held here today, was presided over by Frederick Smith of Manchester. Ichabod Goodwin, the present Governor, was re-nominated for reelection by acclamation. S. C. Filton was nominated for railroad Commissioner. A resolution was adopted, instructing the State Committee to call a Convention sometime after the March election for the choice delegates to Chicago. Senator Hale addressed the Convention, which was largely attended.

Recognition of Vice Consuls. Washington, Jan. 4.—The President has recognized N. W. Welch as Vice Consul for the Grand Duchy of Oldenburg, at Kay West, Theodore Vroup as Vice Consul of Sweden and Norway at St. Paul, and San-Julio Martin as Vice Consul at Havana.

REMOVED. THE CITY INSURANCE OFFICE is removed to the City Bank, to the new office, South side of Genesee-st., opposite the Auburn City Bank.
