

Local and Miscellaneous.

Auburn, Tuesday, Jan. 24, 1880.

Very description of Book and Job Printing. Wood engraving, stereotyping and binding, cheaply, neatly and promptly executed at the Evening Union Book and Job Printing Office.

Frank Phelps' Troupe will perform at Corning Hall again in a few days.

Y. M. A. - Rev. E. O. Daggott, D. D., of Canandaigua, will deliver the ninth lecture of the course before the Y. M. A., at Corning Hall, this evening. Subject: "The Model Young Man."

The Young Men's Christian Association are taking steps to build a festival to take place in a short time. At the semi-monthly reunion to be held at their rooms on Friday evening of this week, the ladies are invited to be present to meet a committee of the Association in reference to the contemplated festival.

New Hose.—Our city authorities have just purchased five hundred feet of hose for the use of the city fire pump, which is located in the machine shop of Messrs. Osborn, Dennis & Co., corner of Geocose and Mechanic streets. The hose was tested on Saturday last, and water forced through its entire length, the whole power of the pump being brought to bear upon it. The trial was perfectly satisfactory in every respect.

Masonic Festival.—Washington's birthday—the 22d of February next—is to be celebrated in Elmire by a grand Military and Masonic Festival. The citizens of that wide awake place have resolved to eclipse anything of the kind ever before attempted. The arrangements are progressing with great energy and spirit, and abundant means are being provided to give all visitors from abroad the best of accommodations. Mine hosts of the Brainard House and Haight's Hotel, give notice that no means shall be left untried to make their guests comfortable, and such changes are being made as will give all who may call upon them eating and sleeping room.

ACCIDENT ON THE CENTRAL RAILROAD.—The sleeping car of the train which left Albany for the West at a quarter past eleven on Saturday night last, became detached from the train near Amsterdam, and was soon made a total wreck. As soon as it became apparent that something was wrong, the brakes were applied and the train stopped. Just at this moment, a freight train came tearing by, which struck the detached sleeping car which was rolling about on the track, and tore it to pieces. It was thrown off the track by the concussion in such a manner that each freight car as it passed struck it, knocking and hanging it about in a very promiscuous manner. The passengers in the car were most unconsciously awakened from their slumbers, but fortunately, no serious injuries were inflicted. The accident occurred between twelve and one o'clock Sunday morning, and caused, as it well might, quite a panic among the passengers. The engine of the freight train was considerably injured.

Our Professor.—Boston has her Professor, and she is proud of him. The Atlantic monthly has given him notoriety, and his remarks at the breakfast table have become familiar to thousands who never eat a mouthful in company with him, but who have greedily devoured every particle of that food for the mind, which he has each month spread out upon his breakfast table. Yes, Boston has her "Professor"; but so has Auburn here, and as the Atlantic has seen fit to elevate the Boston Professor's name, so will we give notoriety to "our Professor." Yet, we have much to be proud of in ours that is so dolly taking in the Boston one. While that other Professor is endeavoring to make young maidens think that he is what he is not—a gay, dashing young spark, anxious and "willing to marry," ours is living the soul of truth, seeking no art that shall beguile the tender heart of woman, but firmly asserting that he "knows his business," and that his age precludes the possibility of his ever falling in love. And our Professor is somewhat advanced in years and the duties of a high office are bearing hard upon him, yet he still works manfully for the advancement of those duties for which he is devoting his life. Still amid the cares and perplexities of a public life, our Professor finds time for amusement and being something of a practical joker, he affords considerable fun for his friends and acquaintances. We chanced to be an eyewitness to one of his jokes yesterday, which we give to the public as evidence of some of the eccentricities to which all great men are addicted. Seeing a friend pass by his office with a can containing—We know not what—our Professor was instantly on the look out for a chance to give play to his love for fun. His friend soon stopped, and setting his can down upon the steps of a store, went in to make a purchase; and our Professor immediately stepped out and taking the can, placed it in a stairway near by; his friend soon came out of the store and reached out for his can, and great was his amazement at not finding it where he had left it but a moment before. He gazed about in blank dismay, stopping every passer-by to ask if they had seen his can; every boy in the street was hailed for a like purpose, but none could give the desired information. All this time our Professor stood within his office nearly convulsed with laughter. Soon the man who had lost his can stepped into a store across the way to make inquiries, when the Professor again slipped out and replaced the can where it had been originally left, and when it was soon discovered by the owner, who was then as greatly amazed as before; he could not be made to believe it had been there all the while; at last he caught sight of the laughing face of our Professor, when the facts in the case were all made plain. A great wag is this Professor of ours—Professor Popple.

Common Council Proceedings.

At a meeting of the Common Council held at their room last evening, present His Honor, the Mayor, and Messrs. Baldwin, Lewis, Garlock and Tyler, Aldermen. The following bills were passed:

Baldwin & Co., fire department, \$73 88
Haskell & Fowler, " " 13 41
Haskell & Fowler, " " 1 50
Terrill & Johnson, streets, 2 44
Gas Company, gas for engine house, 48 88
D. Baldwin, check for quarters salary, 75 00

Ald. Gray reported that the Committee on streets were unable to agree upon a contract for plank to repair the bridges, and moved the reference of the matter to a special Committee to be appointed by the Mayor. Adopted.

The Mayor appointed as such Committee Messrs. Post, Austin and Garlock. On motion of Ald. Baldwin, the Mayor and Clerk were authorized to make a copy note for payment of the new hose.

Miss Butt has but recently become known to the literary world as a writer, but she has been before it sufficiently long to insure for her writings a very hearty reception whenever offered. Her last work, "Leisure Moments," is worthy of the author, although the tales, or many of them, are the production of her childhood.

The author says in the preface to this book, that "in glancing over some passages, the image of one, whose eyes are closed to all earthly things, seems to linger. The smile of approbation when he looked over the youthful efforts of his 'only daughter,' and showed his delight in a way one who knew him could not mistake, is no longer seen. Now, my book goes before the world, to be criticised by those less tender and charitable." We can most truly say, however, that the veriest critic, after reading these pages, must acknowledge that the book is filled with much beauty of expression; and that the father, in his approval of the efforts of his "only daughter," but echoed their own convictions.

Family Sewing Machines.
A New Style. Price \$50.
74 and 76 Genesee Street Auburn.
408 BROADWAY, NEW YORK.

REMOVED.
The Auburn Savings Institution
is removed to the N.W. Building, South side of Genesee street, opposite North A.

INTEREST ALLOWED
On Deposits on the usual terms.
