## The National Grange.

From the N. Y. Sun.

Inquisitive people are beginning to inquire what disposition is made of the funds of the National Grange of the order of Patrons of Husbandry. This grange is located in the city of Washington, and according to all accounts, its accumulations of cash must be large. All granges in the country are responsible to it; but its officers do not seem to be particularly responsible to any one for the use they make of their revenues, and therefore it is quite natural that curiosity should be aroused on the subject. A grange Master in the West is reported to have said that, to the best of his belief, the officers of the National Grange must have received at least $250,000 for granting charters to subordinate granges during the last three years, while a newspaper correspondent, who bases his calculations on the reports of the Grangers, estimates the receipts of the chiefs of the order in Washington at a vastly greater sum. In July last there were in existence 22,000 Granges, with a total membership of over 2,000,000. At $15 for each charter, this would give National Grange $330,000 for charters alone. Add to this the ten cents annual dues received from members in all parts of the country, amounting to $200,000 a year, and the receipts from new Granges which are constantly organizing, and the result is a grand total worth looking after. Of course there are expenses to be paid out of these receipts, but the complaint is that there is a want of definite information as to the character of these expenses, and there are those who are suspicious enough to intimate that the Washington Grangers who grant charters to their bucolic brethren have an exceedingly good thing of it. Of course this is a matter in which Grangers are alone concerned, and if they are satisfied with the management of ther contributions to the National Grange the outside world have no reason to complain. Still it would give a shock to faith in human nature if it should prove that a movement which was instituted for purposes of public reform has been managed for the personal emolument of any of its officials.

## A Marshal of the Republic.

From the Cincinnati Star.

Among the Americans who attended a ball given at the Hotel de Ville, Paris, when John Y. Mason was our Minister there, was Jack Speer, of Kentucky. Jack rushed the dress somewhat strong, and sported epaulettes on his shoulders large enough to start four Major-Generals in business. Jack was the observed of all observers, and got mixed up with a party that his friends could not account for. Whorever the Marshals of France went, there went Jack, and when the Marshals sat down, Jack did the same, always taking the post of honor. The day after the ball Jack called on our Minister to France, who started up a conversation in the following way:

"I hear, Jack, you were at the ball last evening."

"I was, sir, and had a high old time."

"For which you were indebted, I suppose, to the high old company you got mixed up with. By the way, how came you associated with the Marshals?"

"How? By virtue of my office. They were Marshals of France, while I am nothing else than a Marshal of the Republic. I showed my commission, and took post accordingly."

"By right of your office! What do you mean?"

"Read and see!"

Here Jack presented Mr. Mason with a whitey-brown paper, with a seal big enough for a four-pound weight.

"What in the name of heaven is this?"

"My commission of 'Marshal' received in 1850, when I assisted in taking the census in Frankfort."

"You don't mean to say that you travel on this?"

"I don't mean anything else. That makes me a 'Marshal' of the Republic, and I intend to have the office duly honored."

Mr. Mason allowed that Jack was doing a very large business on a very small capital.

## The Future of Nevada.

Governor Bradley's message presents an encouraging state of finances for Nevada. The net indebtedness has been reduced to almost nothing. In 1871 it aggregated $710,269, and now sums up but $84,164. There is a full treasury, a school fund of $250,000, an established credit, and a reduction of taxes. And yet the whole amount of taxable property, real and personal, is but $26,630,279, with a revenue of $895,433, and a revenue of $179,656 from taxes on mines and their production. It must be confessed that this is an excellent financial exhibit; with a splendid outlook, for a state with not more than 60,000 inhabitants, with nine-tenths of its area desert land. At the same time when we attempt to penetrate into the distant future, the outlook is not flattering. In Nevada all roads lead to San Francisco. The wealth of her mines all pours into that metropolis. Not one dollar in twenty is invested in the state that supplies it. The cities are all supported by the mines, and are therefore not permanent, as when the mines are exhausted they must follow the course of the abandoned mountain towns of California. With so small a proportion of good agricultural land not a single commercial town, nor the possiblity of one, Nevada's future prosperity must rest upon manufactures. She has a good beginning for common schools, and these may by and by give her a population intelligent enough and patriotic enough to create a system of manufactures infinitely more valuable to her own people than her mines, rich as they are, can ever become. Singular and preposterous as it may seem to the present generation, the great capitalist of the state—mine-owners and owners of railways—are the men of least public spirit and value to the state, and doing the least for its permanent prosperity. They do not even make their homes there, draw all the wealth of their mines to other states, shirk their taxes as far as possible, and are leaving nothing in the State to compensate the future for the constant drain they are making on its mineral resources. By and by the common people—the farmers and herdsmen—will have to bear exclusively the burdens of local government, unless they develop a genius for manufactures, which the rich men of this age are doing nothing to encourage.—*Sacramento Union.*

Ayer's Cathartic Pills,

For all the Purposes of a Family Physic

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Exruptions, and Skin Diseases, Biliousness, Liver Complaints, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from them Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

THE WHITNEY

SEWING MACHINE!

Patd. July 23, 1872.

IS the result of the constant efforts and practical experience of Mr. J. H. Whitney for the past twenty years.

The OLD ORIGINAL WEED MACHINE, which was formerly so popular, and which received the highest premium at the Paris Exposition, in 1867, was the

Joint Invention

of

Mr. J. H. Whitney.

and Mr. T. F. Wood, 1853. They were partners in business until 1855, when Mr. Wood died; since then Mr. Whitney has made

Valuable Improvements

and has recently patented and brought onto machine of such

Unequalled Simplicity,

durability and Perfect Sewing Qualities, that it has superseded the old Wood Machine, and is a

Complete Triumph

over all others.

It makes the Elastic Lock Stitch alike on both sides. It uses a straight needle, which occupies precisely the same distance from the shuttle without adjusting, whether coarse or fine, and is so protected that the shuttle cannot strike it. It has a positive four motion feed in one piece, without the use of springs. It runs so easy that a single thread of No. 40 cotton can be used for a belt.

PERFECTED

IRON PLANES.

Manufactured by

METALLIC PLANE COMPANY

Auburn, N. Y.

A SHORT time since, we made a set of Iron Bench Planes, the use of which has conclusively proved what such planes, when made simple and cheap as those herein described, will SUPERCEDE the use of WOODEN PLANES. Over 10,000 of these planes are now used by the best wood-workers of the country. How they regard them will appear from a few extracts from their letters printed herewith.

A large call has been made upon us for planes that would work as well as these, and yet were

SIMPLE AND STRONG.

Such a plane we herein offer to the public. It is very simple and is sold

TWENTY-FIVE PER CENT. LESS

than any competing iron planes, and is much more efficient as a working tool. Our Perfected Planes are sold at once, by all wood-workers that examine and try them, to be JUST RIGHT. They are really

The Cheapest Planes Made.

If we consider that they are No. 1 in all respects—in their materials finish, cutters and trimmings; that they never wear or warp, or shrink or swell out of shape; but are always in order—always true, and work easier, faster and finer, and will last a lifetime. They are really Perfected Planes, embracing the excellences, and avoiding the defects of all others.

THEY DO NOT WEAR UNTRUE.

More than ten years' use of iron planes proves this on all ordinary work. But if, after long and very severe use, any slight wear of the face should be seen, they can be made as good as new, in any good machine shop, in fifteen minutes.

THEY DO ALL KINDS OF WORK.

coarse or fine, and no other bench planes are required, as all can afford them. They will save their cost every year, and on hard wood every month, and the workmen will have, at all times, a plane that is true, and that keeps sharp and true. This is a wonderful plane after a few weeks' use never has. Often indeed, new planes in stores are so warped that to straighten them spoils the throat.

THREE PLANES ONLY REQUIRED.

One three Planes will face, smooth and joint any lumber better than any four wooden Planes ever made.

ANY CUTTERS CAN BE USED.

in our planes,—in all other iron planes, special cutters are required. This will be appreciated by those who now have extra good cutters, or who are hundreds of miles from the manufactory. Our

ADJUSTABLE THROAT

which can be made fine or coarse in an instant and those adapted to fine or coarse work, is in peculiar and great excellence. All other iron Planes with fixed throats, are adapted to fine work only.

WE LAY OUR CUTTERS FLAT.

or at a low angle; and, with a fine throat, can thus work smoothly and very easily.

OUR FLUTED FACE

opens free air-channels, compels the plane to move right home, and overcomes all troublesome adhesion to the wood.

OUR CUTTING IRONS

are now made of the finest English plane iron cast and are unequaled for fineness of the cutting edge. They are finished and fitted in the neatest manner before leaving the factory, and warranted.

TESTIMONIALS

We could fill a volume with similar extracts, but give room for only a few.

From E. Montgomery, President of the Mishawaka Furniture Co., Ind.:

Over $250 have been paid by the men in our shop for your planes, and they give perfect satisfaction. They buy them now faster than ever. They are superior to any other planes.

From the Singer Sewing Machine Manufacturing Co., South Bend, Ind.:

We have Fifty-nine of your planes in use in our manufactory, and they prove to be all you claim for them.

From A. M. Robins, Foreman in Hook's Organ Factory, Boston, Mass.:

We have used your planes the past year. They decidedly excel all others for ease and perfection of work. Those workmen who do not use them are behind the times.

From Bailey & Batter, Builders, Quincy, Mass.:

We have used your planes for more than a year and would not part with them at any price. They work very nearly as well on wood as boiler iron on hard. Our men say that wooden planes are "played out."

I have put your planes to the severest tests on Maple and Ash and on red wood, and they have more than paid for themselves already. They are the best planes I have ever used.

MORTGAGE SALE.—Whereas, on the first day of June, 1866, William H. Washington executed a mortgage to Jeanette Miner, upon all that parcel of land situate in the city of Auburn, and bounded and described as follows: Beginning in the south line of Garden street, at the northeast corner of a lot heretofore deeded by the executors of Charles B. Perry to George Edwards, running thence easterly, along the south line of Garden street, nineteen feet; thence southerly and at right angles with the south line of Garden street to the centre of the Owasco creek; thence westerly, along the centre of the Owasco creek, about nineteen feet to the east line of said Edward's lot; thence northerly, along the line of said Edward's lot, to the place of beginning. Which said mortgage was given to secure the purchase price of said premises as therein stated, and was recorded in the Clerk's office of Cayuga county on the second day of June, 1869, in Book 78 of Mortgages, at page 471. And whereas, said mortgage has been assigned to and is now owned by Nelson Beardsley, who claims to be due and unpaid thereon, at the time of the first publication of this notice, the sum of eleven hundred and fifty-five dollars and fifty-two cents. And whereas, default has been made in the condition of said mortgage, and in the payment of the money due thereupon, and no suit or proceeding at law having been instituted to recover the debt secured by said mortgage, or any part thereof, therefore, notice is hereby given, that by virtue of the power of sale in said mortgage contained, and in pursuance of the statute in such cases provided, the said mortgage will be foreclosed by a sale of the premises therein and above described, at public auction, at the Court House, in the city of Auburn, in said county, on the 26th day of February next, at ten o'clock in the forenoon of that day.—Dated, Dec. 1, 1874.

MORTGAGE SALE.—SUPREME COURT, County of Cayuga.—Michael B. Myers against Walter S. Weed, Caroline F. Weed, Martha A. Thurber, John Y. Baltes, Jr., and James Hyde.

In pursuance and by virtue of a judgment of foreclosure and sale, made in the above entitled action, at a special term of the Supreme Court, held at the Court House, in the city of Syracuse, New York, on the 22d day of December, 1874, I, the subscriber, referee, will sell on the 20th day of February, 1875, at 10 o'clock in the forenoon of that day, at the Court House, in the city of Auburn, N. Y., the premises directed by said judgement to be sold, and which are therein described as follows: All that certain piece or parcel of land situate in the town of Bennett, county of Cayuga and State of New York, being a part of lot number thirty-nine, in the original town of Aurelius, and bounded as follows, viz: Beginning in the centre of the highway, and running thence south, one and a half degrees west, ten chains, forty-six links, to William H. Brown's north line; and thence south, 89° 30' east, along the said north line, seventeen chains sixty-eight links, to the west line of the Watson Farm; thence north, 1° 45' west, along said west line seventeen chains and seventeen links, to the centre of said highway; thence southwesterly along the centre of said highway, twelve chains ninety-five links, to the place of beginning, containing twenty acres and forty seven hundredths of an acre of land.—Dated, Jan. 6th, 1875. JOHN G. HOSMER, Referee.

W. W. BAND, Att'y. jan13w7w

MORTGAGE SALE.—Default has been made in the payment of money secured by a certain mortgage executed by Lucy E. Boynton, of the city of Auburn, county of Cayuga and State of New York, to Daniel Cock, of the same place, bearing date the first day of October, 1868, to secure the payment of two hundred and twenty five dollars and interest, at the time and in the manner in said mortgage specified: which said mortgage, with a power of sale therein contained, was duly recorded in the Clerk's office of Cayuga county, on the 17th day of May, 1870, in book 90 of Mortgages, at page 347, at 7 1-2 a. m., and which mortgage was afterwards and on the 14th day of April, 1877, duly assigned by said Daniel Cock to Catherine Maria Pepler, and which said assignment was duly recorded in Cayuga County Clerk's office, on the 19th day of April, 1873, in Book 87 of Mortgages, at page 485, and on which said mortgage there is claimed to be actually due at the first publication of this notice, the sum of 229 29-100 dollars of principal and interest thereon, from December 21st, 1864, and that no suit or proceeding at law or in equity has been commenced for the collection thereof, or any part thereof.—Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, said mortgage will be foreclosed by a sale of the mortgaged premises, at public auction at the Court House, in the city of Auburn, Cayuga county, State of New York, on Tuesday, the 23d day of March, 1875, at 10 o'clock in the forenoon of that day. The mortgaged premises are described in said mortgage, as follows, to wit: All that certain piece or parcel of land situate on the south side of Logan street, in said city, known and distinguished as lot number 7, on a map made by James H. Bostwick, City Surveyor, for Daniel Cock, dated April 28th, 1849, being one chain front and rear, and two chains and fifty links in depth.—Dated, Dec. 19th, 1874.

MORTGAGE SALE.—Whereas, on the second day of September, 1873, William H. Warmington, executed a mortgage to Henry B. Fitch, of certain city lots situate on the west side of Bradley street, in the city of Auburn, and known and distinguished as lots numbers 109, 117, 118, 119, 120 and 121 on a map of city lots made for Nelson Fitch, and recorded in Cayuga county Clerk's office, May 10, 1870, in Book of Maps, at pages 75 and 76, reference being had to said map for a more full and particular description of said premises. Which said mortgage was given to secure the payment of the purchase money of said premises as specified therein, and was recorded in said Clerk's office, on the twenty-first day of November, 1873, in Book 86 of Mortgages, at page 163. And whereas, there is claimed to be unpaid on said mortgage, at the time of the first publication of this notice, the sum of seven hundred and five dollars, and interest thereon from the seventh day of November last, of which one hundred and five dollars and interest from that date is now actually past due, and the residue is yet to become due. And whereas default has been made in the condition of said mortgage, and in the payment of the said one hundred and five dollars, and no suit or proceeding having been instituted at law, to recover the debt secured by said mortgage or any part thereof, therefore, notice is hereby given, that by virtue of the power of sale in said mortgage contained, and in pursuance of the statute in such case provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, at the Court House, in the city of Auburn, on the 26th day of February next, at ten o'clock in the forenoon of that day.—Dated, Dec. 1, 1874. MORTGAGE SALE.—Default has been made in the payment of money secured by a certain mortgage executed by Lucy E. Boynton, of the city of Auburn, county of Cayuga and State of New York, to Daniel Cock, of the same place, bearing date the first day of October, 1868, to secure the payment of two hundred and twenty five dollars and interest, at the time and in the manner in said mortgage specified: which said mortgage, with a power of sale therein contained, was duly recorded in the Clerk's office of Cayuga county, on the 17th day of May, 1870, in book 90 of Mortgages, at page 347, at 7 1-2 a. m., and which mortgage was afterwards and on the 14th day of April, 1877, duly assigned by said Daniel Cock to Catherine Maria Pepler, and which said assignment was duly recorded in Cayuga County Clerk's office, on the 19th day of April, 1873, in Book 87 of Mortgages, at page 485, and on which said mortgage there is claimed to be actually due at the first publication of this notice, the sum of 229 29-100 dollars of principal and interest thereon, from December 21st, 1864, and that no suit or proceeding at law or in equity has been commenced for the collection thereof, or any part thereof.—Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, said mortgage will be foreclosed by a sale of the mortgaged premises, at public auction at the Court House, in the city of Auburn, Cayuga county, State of New York, on Tuesday, the 23d day of March, 1875, at 10 o'clock in the forenoon of that day. The mortgaged premises are described in said mortgage, as follows, to wit: All that certain piece or parcel of land situate on the south side of Logan street, in said city, known and distinguished as lot number 7, on a map made by James H. Bostwick, City Surveyor, for Daniel Cock, dated April 28th, 1849, being one chain front and rear, and two chains and fifty links in depth.—Dated, Dec. 19th, 1874.
