Auburn Morning News

Official Paper of the County.

MONDAY, JANUARY 6, 1879.

City and County.

Weather Indications.

WASHINGTON, January 6. — A. M.— Stationary or rising barometer, warmer, cloudy or partially cloudy.

☞ The week of prayer.

☞ This is supposed to be "Court week."

☞ Railroad travel still continues to be discontinued.

☞ The street railways are all buried under the snow.

☞ Common Council, regular session, this evening.

☞ Small congregations were the rule at all the churches yesterday.

☞ The regular monthly session of the Board of Education Tuesday evening.

☞ Meeting will be held every evening this week at the First Methodist church.

☞ Quite a sensation was caused on Saturday evening by the burial of the street car tracks.

☞ Eight engines, with a caboose, passed through Weedsport yesterday, from Syracuse.

☞ Shovellers were abroad yesterday, digging the hydrants out of the snow drifts in all parts of the city.

WEEK OF PRAYER.—The daily meetings during the week of prayer will be each morning, from 9 to 10 o'clock.

☞ A hundred or more laborers can find work at shovelling snow on the Auburn Road to-day, if the storm abates.

☞ Seward avenue was completely buried in snow on Sunday morning, requiring the labor of all the residents to dig themselves.

☞ Two hundred men and six engines were at work on the Southern Central yesterday, and will continue to-day, to raise the snow blockade.

COURT.—The January Circuit and Special Term of Supreme Court are set down for to-day, with one hundred and thirty-eight cases on the calendar.

☞ The death of Mr. Charles C. Wilber, a printer formerly well known in this city, but for some years past of Rochester, is announced in our obituary department.

☞ The raising of the snow blockade is awaited with much impatience by the entire community. Many strangers are snow-bound in this city, while numbers of our citizens are abroad under similar circumstances.

☞ The engines of the snow bound train between Auburn and Sennett are kept "alive" (in railroad parlance) by keeping up their fires and feeding the water tanks with snow. Coal will be drawn to them by teams if necessary to keep up the supply.

A SNOW-BOUND COURT.—Owing to the snow blockade, which extends over all the country roads, the jurors cannot come to town to attend court to-day. Judge Dwight will adjourn from day to day until the roads are open for the arrival of jurors, counsel, witnesses and others interested.

A NEW RESIDENCE.—Mr. R. B. Dean, one of the enterprising farmers of the town of Fleming, proposes to rest from his agricultural pursuits hereafter. He has purchased of David Wright, Esq., half an acre of ground on Genesee street, nearly opposite the residence of E. D. Clapp, Esq., upon which he proposes to erect a handsome residence next spring for his own occupation.

☞ The sparrows have hard fare during the severe weather, and seek many new places of shelter from the storm. Driven from their old nesting places in the chinks of the prison wall, they infest the buildings at all points where there is protection from the wind and snow. A flock of the little pests took possession of the "plate shop" yesterday during the quiet caused by the Sunday cessation of operations. They entered through the opening left by a partially lowered window sash.

The Southern Central.

DAYLIGHT BEGINNING TO SHOW.

The Southern Central was open yesterday from Scipio to Sayre, a large gang of men being employed in shovelling snow to open the track to Moravia, which work was completed in the morning, after which they returned to Owego and will come back this morning to work in this vicinity. The engine of the train blockaded at Scipio has been making trips between that station and Moravia keeping the track open.

Superintendent Knapp went south yesterday morning with three engines and sixty men. They worked all day and succeeded in getting half way to Wyckoff's. At the South stret cut they encountered a drift one mile in length, and fifteen feet deep, packed solid with snow, sand and gravel, blown from the plowed fields, and so hard that snow shovels would not take hold of it, rendering it necessary to cut it out with iron shovels.

At Weedsport a gang of thirty men were engaged, working southward. The cuts this side of that station were drifted fifteen and twenty feet deep.

At Sterling the snow plow, accommodation train and two engines stuck since Thursday night, were dug out yesterday, and went through to Fair Haven. The plow will come south this morning.

With favorable weather it is expected that the road will be entirely open at noon to-day.

The New York Central.

There was no change yesterday in the position of affairs on the Central. Nineteen engines, with snow plow, trains, 350 snow shovellers and Sup't Burrows, were burrowed in the snow between Rochester and Fairport, on the Direct Road, with no prospect of digging out until the storm lulls.

Orders have been received here to engage all the men to be had to-day, to shovel snow on the Auburn Road and get the train out of the drift in Sennett.

No headway can be made against the snow as long as the wind drifts it on the track.

The Street Railways Buried.

On Saturday evening gangs of men appeared on North, State and Genesee streets, and commenced to shovel the snow from the sides of those streets into the middle. The work was done by the direction of the Street Committee of the Common Council, for the purpose of "putting the streets in suitable condition," to use the words of one of members of the Committee. As the tracks of the street car lines occupy the centres of the streets named, they were, of course, entirely buried, and the cars were unable to run. The down car of the Seventh Ward line was thus brought to a stop at the head of State street, and its passengers were given the privilige of going home on foot.

In the meantime street car travel seems to be abandoned for the present, and people who are wont to ride are awaiting the solution of the question which has arisen between the Companies and the Street Committee.

☞ Two young men from Watertown who had been hanging about town in a suspicious manner and endeavoring to beat victims by various confidence games, are under arrest to await arrival of a Watertown officer, being wanted in that city on charge of robbery. A search of their effects divulged a quantity of counterfeit notes and a knife with secret springs, with which to do the "knife game," an old device for swindling greenhorns. Chief Cootes has the credit of working up the detection of these criminals.

ITHACA, AUBURN & WESTERN R. R.—The meeting to have been held last evening, for consultation, in regard to the bringing of the Ithaca, Auburn & Western R. R. to Auburn, was postponed on account of the storm, and the inability of Judge Low and others to be present, to some future day not far distant, notice of which will be given in the papers. By order committee.

ACCIDENT.—Supt. Treat, while riding on a snow scraper of one of the street cars on Genesee street, on Saturday, was severely injured by a passing sleigh which ran against him, badly bruising his legs.

☞ Rev. J. Alabaster is engaged to lecture in Sheldrake M. E. church on Tuesday evening next, on "Young Men for the Times."

Rescued from the Drifts.

THIRTY FIVE PASSENGERS SNOWED IN ON THE AUBURN ROAD SINCE THURSDAY EVENING—A RELIEF EXPEDITION BRINGS THEM TO THE CITY.

The 9:30 P. M. Chicago Express coming west on the Auburn Road, leaving Syracuse at 8:05 on Thursday evening, was snowed in near Camillus until Friday, leaving Skaneateles Junction at 11:86 A. M on that day. Since that time nothing had been learned of the fate of the train and its thirty-five passengers, a dozen of whom were females.

On Saturday, Mr. John E. Allen, of the Osborne House, organized an expedition to go to the relief of the party, and soon had ten teams and drivers volunteered by different parties as follows:

D. M. Osborne two heavy teams, with Gorton W. Allen in the lead and Nate Rounds following to break the road. J. K. Tallman two teams, driven by H. A. Tallman and C. Hoff; W. B. Dean's fine team, with Ted Walker and Tom Strong; James Peacock's team driven by himself; Ben. F. Webster and Frank Rounds, each driving his own team; St. James Hotel team and driver; National Hotel team, with Mr. Delano and H. B. Perry.

Jno. E. Allen took along a load of provisions, and a number of volunteers armed with shovels to open the drifts.

Conductor Kingdom and two or three male passengers had previously walked into town and reported the train in the cut some 2½ miles east of the city, where the rescuers found the passengers and took them into their sleighs, bringing safely to the Osborne house at about 2 P. M., where they took dinner.

The mail of Thursday was also brought in.

The rescued people adopted a series of resolutions warmly thanking their rescuers, and Mr. Forman, of Sennett, at whose house they had received every attention possible.

Mrs. M. A. North, an invalid, with her child and nurse were left at Mr. Forman's, the lady fearing to take the journey to the city. She was on her way to Clifton, for treatment.

The inception and carrying out of the "rescuing expedition" are creditable to Mr. Allen's well known character for enterprize and liberality, and the aid of the gentlemen named above does them honor as good and benevolent citizens.

Precautions Against Fire.

LOOK TO THE HYDRANTS AND BE CAREFUL WITH LIGHTS AND STOVES.

Chief Engineer Morris is using every endeavor to guard agains disaster in case of fire during the terrible weather now prevailing. Friday night, with the co-operation of the Foremen of the several fire companies, he had men stationed in the houses, ready for "business" in case of alarm, and himself remained up in readiness for any call.

The hose at each house was ready coiled at the door, and express teams with sleighs and drivers, selected for the duty of drawing hose.

These wise and thoughtful arrangements will be continued while the storm lasts, and, in the meantime, the greatest caution should be used by all people in connection with heating apparatus.

How Sugar is Adulterated.

The adulteration o sugar with glucose or grape starch, which has attracted so much attention recently, is described as follows: Sugar refiners, it is alleged, by the use of glucose, make a clear gain of $15.72 on every hogshead of sugar they refine, three-fifths of which amount comes from the government and two-fifths from the purchaser, who thinks she is buying sugar. This is how it is said to be done: Sugar is bought at 6½ cents a pound and mixed with glucose, purchased at 3½ cents a pound, in the proportion of three parts to one. After having pocketed the difference in price between sugar and glucose, the refiner re-exports the "refined" sugar and obtains a rebate or drawback of 3 per cent, on his glucose, which he pretends was Cuban sugar that had been imported here and thus paid duty. There are about 300 pounds of glucose to every hogs head of refined sugar. The government therefore pays the refiner $9, which he falsely declares he has paid for duty. No wonder, if the facts are as stated, the refiners are opposed to any change in the present tariff, and are holding daily meetings to protest against a new sugar tariff bill.

STEAM HEAT.—Utica proposes to adopt the Auburn plan of steam heating by the Holly system, and will probably commence operations next spring.

THE New York Tribune's bitter partisan attacks on the Southern Democracy of late have extorted the subjoined scathing reproof from the Springfield Republican, the leading journal of its kind in New England: "The Tribune has simply succombed to partisan passion against the Southern White Democrats,' and falls into a recklessness of statement worthy only of one of Mr. Blaine's organs up in Maine. When it says that the South has 'grown worse, every time' the government of force has been relaxed, and that it is 'solid for attacking the public debt, and solid in breaking into the Treasury,' as it did a few days ago, it knows in its calmer moments that it is talking infernal falsehood for party capital, and it is time that it be told so by somebody, even at the risk of being called 'an aggressively virtuous newspaper,' an epithet which Horace Greeley would have been proud to have applied to the journal which he founded."

AT THE PRISON.—There have been no arrivals and no discharges of convicts at the prison this month, leaving the total present to-day, at eleven hundred and sixty.

☞ Eight trains are snowed in on the Auburn Road, waiting for the storm to sub-side.

☞ A train was pulled through from Rochester to Buffalo Friday night, by twelve engines.

EXCISE BOARD.

Regular monthly meeting of Excise Commissioners takes place in the City Hall, January 6, 1879, at the hour of 4½ P. M.

C. Q. DAY,
Clerk.
jan4B&N1t

CLAIRVOYANT EXAMINATIONS FREE — By Dr. E. F. Butterfield. There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astonishing success and remarkale cures performed by Dr. Butterfield, are due to the gift of Clairvoyance, to the long study of the constitution of man and the curing of diseases from natural remedies. Let those given up by others call for examination. He cures the worst cases of Scrofula, Catarrh, Piles, Female Weaknesses, Asthma, Diseases of the Heart, Lungs and Kidneys. He will be at the Moravia House, Moravia, Thursday, Jan. 9. National Hotel, Auburn, Friday and Saturday, Jan. 10, 11. Guarantees to cure every case of Piles, and no pay taken until a cure is made.

E. F. BUTTERFIELD.

Every wise person goes to the Boston 99 cent store for Holiday goods 119 Genesee St. dec14B,N,Dtf

DR. SUTHERLAND

AT ST. JAMES HOTEL, FRIDAY AND SATURDAY, JAN. 3 AND 4.

This distinguished physician will again visit Auburn, as announced above, when he will, as usual, give Medico-Clairvoyant examinations *Free of Charge* to the sick. While it is your privilege to consult all the doctors you like, we cannot forbear advising every invalid reader who would learn the truth about any existing malady, likewise the prospects of cure, to see DR. SUTHERLAND on his very next visit, because he is recognized far and wide as an expert both in the diagnosis and treatment of diseases—generly curing, or helping all for whom he is willing to prescribe. Possessing positive knowledge of every type of disease—employing new and improved remedies perfected by himself, explains in few words the secret of DR. SUTHERLAND'S great success.

dec10N&Sdtf.

Those wishing to make handsome and useful presents with a little outlay of money will certainly go to the Boston 99 cent store.

dec14B,N&Dtf

TELEGRAPHIC REPORT.

(Continued from first page)

ured by the Delaware & Hudson canal company, and that Smith Weed, the company's attorney is working for him. The explanation of this is that the company has certain projects of its own respecting the Troy & Boston railroad and the Hoosac tunnel, which Sloan is supposed to be willing to advance. The New York Central railroad company is working for Alvord.

GOVERNOR'S MESSAGE.

The governor's message will congratulate the people on the reduction of the state debt and taxation, and on the success of the present prison management, and will speak of the increase of lunacy.

The controller's report will make a favorable exhibit in relation to state finances.

THE CANALS.

Auditor Schuyler's report shows the the total canal receipts from the fiscal year to be $988,651; surplus revenues, $248,902; deficiency of revenue, $750,029, which with interest makes the amount to be supplied by tax, $815,535, equal to three-tenths of a mill on the present valuation.

A comparison of the business of 1878 with 1877, shows a loss in revenue of $64,709.

The reduction in expenditures has been $310,580, making a gain in net revenue of $245,871.

PUBLIC WORKS.

The expenditures under the superintendent of public works for eight months were only $18,511 in excess of those under the commissioners for four months.

For the entire year, the cost of collection, superintendency and ordinary repairs has been $739 748, being the lowest aggregate since 1861.

The auditor urges free canals as necessary to meet the changed condition which time and enterprise have wrought.

SENATOR CONKLING'S PLANS.

The Herald says there are reports that Conkling has determined not to oppose the confirmation of the New York custom house appointments, said that the Republican senators have urged Conkling to make no further resistance on the ground that it is necessary to have harmony, because if an extra session is called, the Democrats will have an opportunity to reorganize the senate, which would be inconvenient to Gorham, who is depended on to carry California next fall.

SENATOR THURMAN.

Thurman leaves Monday for Columbus to participate in the anniversary of the battle of New Orleans. He has prepared a speech, giving reasons for his refusal to run for the governorship of Ohio.

His friends say he will also advocate the wisdom of maintaining specie payments, and produce his celebrated speech of a couple of years ago in Hamilton, to show that he always favored resumption on the day fixed by the law.

THE CHINESE QUESTION.

Officers of the new Chinese embassy maintain that the United States is fully bound by the existing "Burlingame" treaty, that changes must be reached by negotiation and that the government is bound to see that no state assumes a hostile attitude toward Chinese subjects in contravention of the treaty.

The Times says it is understood that the cabinet is divided upon the Chinese question, some favoring abrogation of the treaty and others favoring modification by which immigration may be limited. The Chinese government will resist any offer to modify the treaty but will not formally object to its abrogation.

THE COLD TO CONTINUE.

The signal service predicts that the intense cold may last several days.

NEW YORK CITY DEBT.

Comptroller Kelly's statement shows the city debt to be $113,418,000, a reduction of over four millions during the past year.

THE VANDERBILT QUARREL.

Mrs. Mary Labau Berger, has begun a suit against Wm. H. Vanderbilt and her other brothers and sisters to determine the validity of certain devises by the commodore to Wm. H. Vanderbilt and others. The object of the action is said to be among other things the appointment of a receiver.

LLOYD GARRISON RAMPANT.

The Tribune publishes a letter by Lloyd Garrison, December 19th last, demanding that the bloody shirt be made the great issue. He charges that the south is unchanged at heart.

ANOTHER ENGLISH BANK FAILURE.

A London correspondent telegraphs from Truro, Cornwall, that great consternation was manifested this morning, in consequence of a notice pasted on the door of a Cornish bank, announcing that it was closed.

Unfavorable reports have been in circulation a few days as to the stability, but the general feeling was of confidence although there was a slight run on the bank. It is hoped that the suspension will be only temporary. Nothing definite can be known for a few days. The bank did a very large business in mining and other commercial enterprises.

The Cornish bank belongs to Tweedie, Williams & Company. It was established about 110 years ago, and has branches at Falmouth, Penryn and Redruth.

Sir Frederick Williams, the member of parliament for Truro, who died recently, held one-third of the concern and his widow is his sole executor. The bank had authorized the issue of 49,000 pounds.

THE WEATHER.

The weather yesterday in this city was colder than for ten years, and it is now believed that the severe gale of the past two days will result in great suffering at sea and many shipwrecks.

FROZEN TO DEATH.

CHICAGO, Jan. 4.—A farmer's team was found obstructing the horse car track yesterday, and on investigation it was disclosed that the farmer was frozen to death in his wagon.

A team stopped at the stock yards last night and the driver was found in the wagon frozen dead.

NEW YORK, Jan. 4.—An old man supposed to be James McArthur, of this city, was found this morning in a snow bank in 69th street frozen to death.

DIED.

WILBUR—Died in Lahpeming, Michigan, Jan. 2d, at his brother's, of consumption, Charles C. Wilbur, aged 41 years, 10 months, 25 days.

The remains will be interred in Mount Hope Cemetery, Rochester.

The peculiarity about the A. S. T. Co Black Tip is that children's fine shoes to which they are applied, not only wear twice as long, but they really add to the beauty and finish of the finest shoe.

THE

SCIENTIFIC AMERICAN

THIRTY-FOURTH YEAR.

THE MOST POPULAR

Scientific Paper in the World

Only $3,20 a year, including Postage. Weekly. 52 Numbers a year 4,000 book pages.

The Scientific American is a large First-Class Weekly Newspaper of Sixteen Pages, printed in the most beautiful style, profusely illustrated with splendid engravings, representing the newest Inventions and the most recent advances in the Arts and Sciences; including new and interesting facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.

Terms, $3 20 per year, $1.60 half year, which includes postage. Discount to Agents. Single copies, ten cents. Sold by all Newsdealers. Remit by postal order to MUNN & Co., Publishers 37 Park Row, New York.

PATENTS. In connection with the Scientific American, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, have had 34 years experience, and now have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the Scientific American of all inventions patented through this Agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who has made a new discovery or invention, can ascertain, free of charge, whether a patent can probably be obtained, by writing to the undersigned. We also send free our Hand Book about the Patent Laws, Patents, Caveats, Trade-Marks, their costs, and how procured, with hints for procuring advances on inventions. Address for the Paper, or concerning Patents,
