

Paints that Play 'Possum

You know the sort of paints we mean—the kind that have no real "body,"—that look so good in the can and so pretty when first put on, and then in a little while crack, blister, peel off, fade out and play all sorts of deviltry.

If you want good paint, paint that is made from genuine linseed oil, that contains nothing but the very best pigments, and is thoroughly ground and assimilated, buy

American Seal

and buy no other. American Seal Paint will cover a larger surface and cover it well than any other paint made.

American Seal Paints are specially manufactured for every description of work on which paint can be used.

The SPRAMOTOR Wins

Gold Medal and Highest Award at the Pan American Exposition Buffalo.

Six Governments in America and Europe have used the SPRAMOTOR exclusively.

BUFFALO, N. Y., April 1, 1901.

The Spramotor Co.:

GENTLEMEN—We take great pleasure in recommending your Spramotor machine for applying both cold water and lead and oil paints. We have experimented with several paint machines, but in our experience we consider yours to be the best of anything that has come to our notice. Yours very truly,
J. B. KING & CO.

OHIO AGRICULTURAL EXPERIMENT STATION
WOOSTER, O., September 6, 1901.

Spramotor Co.:

GENTLEMEN—I have used the Spramotor in experimental work. It has given me better satisfaction than anything else I have ever tried for spraying crude petroleum mixtures. The machine works easily. Yours very truly,
F. M. WEBSTER, Entomologist.

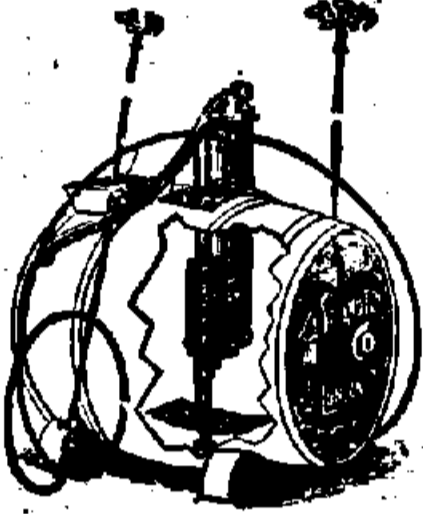

CORNELL UNIVERSITY, COLLEGE OF AGRICULTURE
ITHACA, N. Y., May 9th, 1901.

We have been using your pump in our orchard and demonstration work. Our men speak of it in the highest terms. There is an abundance of power and it works easier than any other pump we have. Yours very truly,
JOHN CRAIG.

There is a greater profit from fruit sprayed with a Spramotor than any other. With it you can improve the milk and butter yield. You can kill the Wild Mustard in the growing grain without injury to the crop.

The SPRAMOTOR will kill San Jose Scale, and not injure the tree. A combined mixture of bordeaux and paris green, whale oil soap and crude oil and water, may be used in any proportion.

The Spramotor is the only reliable machine I know of to apply a mechanical mixture of oil and water.—Geo. E. Fisher, Government Inspector.

68 70 King Street, London, Ont. **SPRAMOTOR CO.,** 169 Erie Street, Buffalo, N. Y.

AN ARM-FRACTURED.

The many friends of Thomas Nissen, who was a member on board the battleship Olympia at the battle of Manila, and who gave a talk as a smoker given by the Business Men's association last Winter, will regret to learn that he entered a fracture of his right arm

MATTERS AT THE ARMY.

New Gymnasium Will Soon Be Opened and Athletics Are Booming.

In accordance with the suggestions that have been made by the National Guard as well as regular army authorities with regard to the benefits to the soldier by an infusion of athletic exercises with the military drill, the officers of the Second Separate company have had a gymnasium added to the many improvements to the State Army. A large sum of money was taken from the company treasury some time ago for the purchase of gymnastic apparatus and this has been placed in position in the large squad drill room which was set aside for the purpose. The paraphernalia, which is of the best, consists of dumb bells and Indian clubs of all sizes, chest weights, whitely exercisers, boxing gloves, fencing foils, punching bag, medicine ball, horizontal and parallel bars, rubber quonit, lying rings, trapeze, broadsword, etc., and is being quite extensively used by the members of the company now. Competent instructors are to be secured later and a formal opening of the "gym" is to be held in the near future, which will be a social event in the army circles of the Winter. It is proposed to have a smoker at that time, with refreshments and selections by the army orchestra. The orchestra is rapidly coming to the front as one of the leading musical organizations of the city. It consists of 10 pieces and the result of the many rehearsals is great improvement in the rendition of many difficult selections.

Athletics are being introduced quite extensively into the company drills on Tuesday nights. The "setting up" exercises form an important part in each drill. These are a system of exercises which bring into play all the muscles of the body, especially those of the breathing apparatus. They require considerable muscular effort, as the service rifle, which weighs about nine pounds, is held in both hands and passed into a varied number of positions. These exercises are generally followed by a smart run for about 10 minutes. The object of the "setting up" exercises is to correct any defects in the bearing of the men, and to give them a soldierly appearance.

The systematic bettering of the physical condition by a regular course of athletics is the aim of the officers in the gymnasium. It is proposed to encourage competition, the idea being not to encourage special time, but to obtain results for the general good of the men. During the Winter it is proposed to have contests of various kinds at the army by members of the company, for which events prizes of more or less value will be given.

Baseball has the call on the other sports in the army this Winter, and for the first time in two years the soldiers are at the top in the race for the city league pennant. Basketball, however, is being taken up and the prospects for having a very strong team are very bright. At meetings held last week a basketball organization was formed with Corporal Archie Brinkerhoff as chairman. Wilson C. Hoemer was elected manager and Charles R. Stanford captain of the team. On Friday night of this week the team will have its first match and the boys will go up against a very tough proposition. The tackle the five of the Watertown Y. M. C. A., the champions of Northern New York. In connection with the basketball ball game there will be an exhibition of gymnastic feats by members of the company, assisted by some of the crack athletes of the local Y. M. C. A. During the evening selections will be rendered by the company orchestra under the leadership of LeRoy Lewis.

The addition of the gymnasium, combined with the many social features which are enjoyed by the soldiers without expense, has had an influence on the outside for applications for membership in the company have been pouring in of late. Only first class men are being accepted by the recruiting officers and for the first time in many years the company has nearly reached the limit of a full company. The company has shown a wonderful improvement during the past year as the recent report of the inspecting officer, Lieutenant Colonel W. A. Chaspin, of Albany, which was read in company meeting a short time ago, showed and all indications point to a higher state of perfection during the coming year.

POLICE POINTS.

A man who was arrested Monday for public intoxication in Genessee street paid a fine of \$2 next day.

John Hawalka who was arrested Saturday on complaint of his wife who claimed that he had struck and abused her, was discharged by police court there being no appearance on the part of the complainant.

The ball ton of coal which the junk dealers, Platt and Bacon, stole from the Lehigh Valley cars Sunday night and for which they are nowjourning with Sheriff Colton for 30 and 30 days, respectively, was Tuesday donated to Patrol Officer Farrell for use in his office.

Patrick Barry and Lawrence Grady were arrested Monday night by Officers Coste, Callahan and Keegan on a warrant issued on complaint of Grace Rice, proprietor of the house at No. 196 State street. It is claimed that they are the men who raised a rumpus at that place last Friday night, winding up by throwing a chunk of ice through a window of the house. The arrangement both pleaded not guilty and they were released on bail, pending examination at 2 o'clock Wednesday.

A M'KINLEY MEMORIAL.

The ladies of C. W. Crocker Post Relief corps, No. 431, held a M'Kinley memorial service in their rooms in the State armory Monday. A very interesting and instructive paper was read by Mrs. Ruson on the birth, the death and the life work and characteristics of the martyred President. The following program was also rendered: Music, Mrs. Strickland; reading, Mrs.

Robinson; solo, Mrs. Strickland; concert, Mrs. Lytle; recitation, Mrs. Beckman; recitation, Mrs. Robinson; remarks, Mrs. Ruson.

The closing number on the program was the reading of an article from the Grand Army Journal which paid a high compliment to the work of the Crocker Relief corps. Light refreshments were served.

DR. E. F. BUTCHFIELD,
SYRACUSE, N. Y.

The famous eldroyant physician talks of the progress that has been made in the treatment of chronic diseases in the last forty years.

Very few doctors, who began their practice forty years ago are left to tell the story of the ways and methods of those earlier times. The old saddle bags contained Dover's powder, calomel and blin and so on, the last given to the young to cure worms, and also to give a proper religious bent. Bleeding, even to the point of prostration, was an adjunct to the drug remedies. The Allopathic school held the fort for many years. It was finally charged and modified by the Homeopathic and Eclectic schools and the so-called irregulars. Taking all the different schools of medicine including those called irregulars, the Christian Scientists, Magnetic healers, Osteopaths have failed to give us any surety of perfect diagnosis and treatment of disease. They make lamentable failures in the treatment of the most important diseases and are not to be relied upon. We still have heart disease, sugar diabetes, Bright's disease, dyspepsia, rheumatism, paralysis and all other various ills that seem to baffle the skill of the physician to rightly name the disease or perform a cure. First, we are aware that wisdom and knowledge are the result of long years of toil and research, and that deep down in human nature the loftiest truths are born. But Butcherfield starts out from a different standpoint, basing his knowledge upon a spiritual insight into the causes of your conditions and the reasons for your suffering. This spiritual insight is the incentive to all progress and is the one true method by which the right remedies can be used to suit the case. The doctor has been coming to Auburn for forty years, and has cured hundreds of cases that have come to him as a last resort, and he has cured where all others had failed and hoped had gone. He uses vegetable remedies entirely, which are as natural as fruit in the system. They can be taken by any one, no matter how delicate the stomach. The doctor cures some of the worst cases of kidney and bladder trouble, enlarged liver and diseased heart, dyspepsia, rheumatism and all forms of chronic diseases. All are welcome to a free examination. His long experience is worth anything to the chronic invalid.

Dr. Butcherfield will be at the Osborne House, Auburn, N. Y., on Tuesday, Feb. 25th, 1902.

MORAN IS ACTIVE.

Seneca County Assemblyman Has Introduced Four Bills of Local Interest.

Assemblyman Daniel W. Moran, of Seneca county, has introduced four bills in the Assembly, as follows: Providing for a closed season for hunting mink, skunk and muskrat in Seneca county, from May 1 to October 31, the same as now in force in Cayuga county; amending the game laws so as to allow fishing with lyke nets, mesh no less than one and one-eighth inches, for bullheads, ale, stokers, dogfish, in Cayuga lake, North of Cayuga point, within 1,800 feet from the West shore, and also in all parts of Sand lake, North of the railroad bridge, and within four miles of said lake in all rivers and streams which flow into and from said lake; and to build a bridge, during the months of October, November, December, January, February and March of each year; permitting duck shooting from batteries propelled by hand, if only one person shoots from the battery, on all parts of Cayuga lake, either with or without decoys, on Wednesdays of each week, from October 1 to March 31. The fourth bill is a general law of great importance. A district attorney of Seneca county Mr. Moran had charge of the proceedings against James B. Thomas, the cashier of the Le Roy C. Partridge banking house at Ovid, which failed and almost ruined the South end of the county. Mr. Thomas was indicted and Mr. Moran found that the laws of this State were hardly strong enough so he has introduced this bill, which provides for the punishment of any person employed in an insolvent bank who receives a deposit, knowing that said bank is insolvent. If said deposit is less than \$25 then the crime is a misdemeanor, and, if over \$25, then it is to be a felony, punishable by a fine of not less than \$500 nor more than \$3,000, imprisonment for not more than five years.

MACGABES DANCED.

The fourth dancing party of the series given by the K. O. T. M. was largely attended in St. George's hall Monday. Dabinski's orchestra furnished the music for a programme of 20 numbers. The committee in charge were: Floor director, John F. Ryan; aids, J. B. House, S. J. Port, J. E. Christiano, W. E. Harrington, A. Walsh, F. R. Durling, C. E. Blakeley; Reception committee, I. Walker, L. J. Powers, W. Wylie, W. H. Cochran, N. L. Courtes.

MORAVIA HAS NEARLY 1,500.

In pursuance of a law enacted by the Legislature, compelling villages to file a report as to population with the county clerk of the county in which they are located, the report of two villages, Moravia and Meridian, was filed with County Clerk Benham Tuesday as follows:

Moravia—Total population, 1,439; over 21 years of age, 1,097; under 21, 342.

Meridian—Total population, 358.

WHAT'S IN A NAME?

John Brown, not that historic figure whose "body lies moulding in the grave," came to town Tuesday morning from Port Byron and proceeded directly to the jail which will be his address for the next 30 days. Justice of the Peace Root found him guilty of vagrancy and committed him accordingly.

THE COUNTY.

CATO.

MERIDIAN, Jan. 23.—The Poverty social held at the home of Eugene Likok on Friday evening drew a crowded house. Mrs. William Chase and Edd Emons drew the lady's and gentlemen's prizes for being the poorest dressed. The proceeds were \$20.

The Whist club will meet at Mrs. G. J. Applegate's on Monday evening.

Mr. and Mrs. D. J. Tabor spent Saturday in Westport.

The Ladies' Aid society is invited to Mrs. Rogers, of Patroville, on Friday evening. Mrs. Rogers was a former resident of this place and a member of the society.

A. C. Lawrence, of New York, spent Monday with his mother and sister.

A surprise will be given Mr. and Mrs. George Humphrey on Tuesday evening.

BRUTUS.

WEEDSPORT, Jan. 23.—Gibbert A. Benedict, who was appointed by the Village board to take the census of Weedsport, has completed his duties and a public hearing was held in regard to it one evening last week. The population in 1898, an increase of 31 over the census of 1900.

The annual meeting for the election of officers of Theta Phi Fraternity was held in their rooms in the High school building last Friday evening. Corvelli Hudson was elected president; Fred R. Hopkins, vice president; John B. Kinsley, treasurer; L. E. Seidold, corresponding secretary; Mart A. J. Fineman, guard; Harry L. Ladue, secretary, and Walter T. Sim, chaplain.

The funeral of John Powers, father of Robert Powers, a business man of the place, was held Sunday afternoon at St. Joseph's church. Interment was in St. Joseph's cemetery in this place. The condition of B. V. Botsford, who recently fell, fracturing his arm, is somewhat improved and a speedy recovery is looked for.

C. C. Caywood and D. E. Durston left Saturday morning on a business trip to New York.

State Game Protector James E. Lamphere of this place prosecuted several illegal fishermen the past week.

James S. Thompson of North Tonawanda, who has been a recent guest of Abram Walrath, has returned home.

W. J. Bell of Nawara, Mich., spent a portion of the past week at the home of his father, John Bell.

Miss Harriet Henderson, who was quite badly injured in an accident in Hunter's omnibus a few days ago, is somewhat better. E. E. Salmons, who was also injured, is able to be around again.

Orlando Remington is seriously ill at the home of his son, Charles Remington.

Miss Katherine Quersaw of Red Creek is the guest of Miss Victoria Briggs, precentress of the High school.

Miss Ella Duncan is ill at her home in Willow street.

Mrs. Joseph Bowen is visiting in Fulton.

A party was given at the home of Mr. and Mrs. Daniel Deany Friday evening in honor of their son, John, who recently returned from Chicago for a short while.

Rev. Frank L. Bell, formerly of this place, but who now is assistant pastor of the Centralville M. E. church in Lowell, Mass., occupied the pulpit in the First M. E. church in this village at Sunday morning's service.

SURROGATE'S COURT.

Will of the Late James H. Hoskins Admitted to Probate.

The will of James H. Hoskins, of Auburn, was admitted to probate and letters testamentary were issued to Esther C. Hoskins and James H. Hoskins, executors named. By the terms of the will the deceased left certain real estate in Buffalo to Mrs. J. D. Simpson, his daughter. To J. D. Simpson and the widow, Esther C. Hoskins, is left the fire insurance business jointly, and under certain conditions. To the widow is left a life use of the balance of the estate and at her death \$100 is to go to each of the grandchildren, six in number, \$100 to Mrs. Julia Starana, of Rochester, \$100 to Mrs. Marian Parker, of Syracuse. The residue of the estate is to be divided equally between the deceased's three children: Mrs. J. D. Simpson, Mrs. Henrietta Underhill, of Syracuse, and J. M. Hoskins, of St. Louis. The estate consists of \$25,000 real personal property and \$4,000 real estate.

The will of Mary Butler, of Auburn, was admitted to probate and letters testamentary were issued to L. K. R. Laird, executor named. The deceased left \$100 to Rev. J. J. Hickey, \$100 to Francis Buros, \$20 to Father Maley, of Elmira, and the remainder to a niece, Ann Byrne. The estate consists of \$800 personal property.

Letters of probate of will filed and citation issued to February 7 in the matter of the estate of Bassett Bowen, of Moravia. The estate consists of \$5,000 personal property and \$4,000 real estate.

Letters of administration de bonis non issued to Howard M. Bowen in the matter of the estate of Benjamin Bowen, of Lyndard. Good in the total sum of \$6,400 with the Fidelity and Deposit company of Maryland as surety filed and approved. The estate consists of \$3,200, all personal property.

Account filed, citation issued to February 18 and order granted for leave to sell doubtful claims in the matter of the estate of Almon J. Boya, of Auburn.

DEMPSEY'S RECORD IN AUBURN

William Dempsey, the bootblack arrested in Cleveland Monday is connected with the murder of Bain Brown, the aged jeweler in Rochester, served a term in Auburn prison. He was received here from Rochester Feb. 11, 1900, for a sentence of one year and six months minimum and five years maximum for attempted sodomy. He was paroled August 16, 1901, at the expiration of the minimum sentence. He was 19 years old when released on parole.

Quails have become so scarce in Europe that France and Germany have joined in prohibiting the killing of the birds, and even the transport of dead quails across their respective territories.

DISASTER IN MID-CITY.

Speculation As to Cause of Explosion in Subway.

EXPLOSIVES STORED IN SHANTY

Fire From Powder Man's Candle Probably Ignited the Paraffin Paper in Which Cartridges Were Wrapped. Architects Making Estimates as to Property Destroyed.

New York, Jan. 23.—The authorities are energetically at work trying to solve the mystery of the terrific explosion of dynamite which killed six people and did so much damage in the vicinity of the grand central station. After many hours of thought on the subject District Attorney Jerome said that he had come to the conclusion that fire undoubtedly caused the explosion. He had ascertained that Epps, the powder man, had a candle. In doing this, according to the district attorney's opinion, a fire may have been started which ignited the paraffin paper in which the cartridges were wrapped.

Mr. Jerome has concluded from the information received from various sources that at the time of the explosion there was between 125 and 200 pounds of explosive in the house at the time of the supposed fire and in the morning there had been probably 600 pounds.

John McDonald, chief contractor of the rapid transit tunnel, gave out a long statement in the form of an interview yesterday concerning the explosion. He said the blasting work nearest the magazine which exploded was nearly 200 hundred feet away, and he does not attempt to explain the cause of the accident. He is inclined to doubt that a blast did it. He also agrees that dynamite ought not to explode in fire and said that the fulminate of silver detonators which are used as caps in the cartridges were not stored in the magazine, this contained dynamite only.

All day long architects and builders have been going over the buildings, public and private, damaged by the explosion. An estimate of the amount of money which must be expended to repair the damage was given out, with the statement that it was necessarily approximate. The estimate reads:

Murray Hill hotel, \$75,000; Grand Union hotel, \$40,000; Manhattan Eye and Ear hospital, \$2,000; Grand Central station, including property at No. 5 Vanderbilt avenue which is owned by the railway corporation, \$10,000; restaurant and private residences of the latter (there were 23), \$18,900. The heaviest loser among the citizens was W. F. Payne, with a loss of \$4,500.

Marine Hospital at Buffalo.

Washington, Jan. 23.—The house committee on commerce has ordered a favorable report on the bill establishing a marine hospital at Buffalo and appropriating \$125,000 for this purpose.

PEACE PROPOSALS

Message Received From Dutch Government.

London, Jan. 23.—The government leader, A. J. Balfour, announced in the house of commons that no overtures for peace had been received from anyone authorized to speak in behalf of the Boers.

A communication was, however, received late on Saturday from the Dutch government, which was now under consideration. Mr. Balfour hoped shortly to lay the communication and the reply to it before the house.

The announcement of Mr. Balfour caused a sensation in the lobbies of parliament.

Lord Rosebery is generally credited with having brought about this movement on the part of the Dutch government. It is recalled that Dr. Kuyper, the Dutch premier, in an interview published about Christmas time, was represented to have urged the impossibility of Holland's intervening in South Africa unless she had reason to think that both parties wished it. Consequently it is regarded as certain that the present move was inspired by the Boer delegates.

The Petit Bleu of Brussels, the organ of the Krugrities, flatly denied that the Boer delegates had charged anyone to make a peace proposal and professed to be in entire ignorance of the Dutch communication.

To Break the Blockade.

Panama, Colombia, Jan. 23.—The government steamers Boyaca Chucuito and General Campo sailed from here to make an attempt to break the blockade of Agua Dulce, where the revolutionary fleet was last seen, and to communicate with General Castro. The government has sent strong reinforcements to resist any attack on Colon. General Pinto, with 3,000 men, has marched from Call to Bogota to reinforce the movement of troops at the capital.

Straits Blocked With Ice.

Mackinaw City, Mich., Jan. 23.—The car ferry Ste. Marie, which is trying to force a passage through the heavy ice in the straits from St. Ignace to this place, made good progress until within one and one-half miles from her dock when she became fast in the ice. No crossing has been made since Sunday afternoon. Large numbers of passengers are delayed on both sides of the straits waiting for the steamer to cross. All trains are late.

AGAINST A RAILWAY.

In Supreme court at Syracuse Monday evening Justice Kitch submitted to the jury the case of Alva A. House against the Auburn City Railway company. Plaintiff seeks to recover \$150 for a horse which had to be killed after being struck by one of the defendant's cars.

STOP THAT COUGH WITH GRAY'S BALMSAM THE BEST COUGH CURE

COMPLAINT DISMISSED.

The case of Asa J. Gray vs. Edward Vaupe occupied the attention of Judge Eaph in City court Tuesday. The action was brought to recover \$20.50 for rent of a house in Fa. r Have and damages thereto resulting from bad usage. The complaint was dismissed because the plaintiff could not prove his case. Francis C. Kalses appeared for the plaintiff and Taber & Brainerd were attorneys for the defendant.

AGAINST A RAILWAY.

In Supreme court at Syracuse Monday evening Justice Kitch submitted to the jury the case of Alva A. House against the Auburn City Railway company. Plaintiff seeks to recover \$150 for a horse which had to be killed after being struck by one of the defendant's cars.
