Prof. Pond—Gave the last lesson in his term of music on Friday eve., March 24th, 1876, which we had the pleasure of attending. The music was excellent judging from the manner in which he conducted the class, we would say he has fully sustained his old reputation of being one of the most efficient tutors of vocal music in the country. He contemplates organizing another class before long.

A. WITNESS.

Henry S. Gibbons—Was born in Russell, N. Y., April 11, 1821. He was educated in common school and at Canton Academy till about twenty-two years of age. He taught school several terms in this village and in adjoining towns. Studied law in the office of Silas Baldwin, Esq., also with Wm. A. Dart, at Potsdam. He emigrated to the west in April, 1854. Married and settled in St. Johns, Mich. A useful and influential citizen, there as well as here he won the esteem of all who know him. He died on the 21st ult. He had suffered for some time from a felon on his hand, which brought on nervous prostration and death.

A Bald Eagle—Was killed in the town of Macomb, in this county, on Monday last. It measured seven feet and three inches from tip to tip, three feet and one inch from beak to the end of its tail, and weighed twelve pounds. It was brought to Davidson, our local taxidermist, to be set up.—*Ogd. Journal.*

There—Are to be two new steam yachts attached to the Crossman House at Alexandria Bay during the coming season. They were built in Buffalo, are beautifully fitted up and furnished with ladies' cabin, well ventilated, carpeted, upholstered, have stained windows, and other appointments to correspond. One of these steamers will run as a daily express, making the rounds of all the islands in the vicinity of the Bay, carrying supplies, and taking orders for supplies.

St. Lawrence Presbytery — Is now holding its Annual Meeting in this village. The sessions commenced with a business meeting on Tuesday, p. m. On Tuesday evening Rev. Dr. Miller, of Ogdensburg, gave a discourse on The History of the Original Presbyteries which occupied the same territory as the present Presbytery. To-day (Wednesday) there will be a business meeting in the forenoon, in the afternoon a devotional meeting and communion service, and in the evening a sermon by Rev. H. M. Dodd, of Dexter, Jeff. Co. There will be one or more business sessions on Thursday.

"Child Stealer."—The Canton Dramatic Association will present at Miner Hall this (Wednesday) evening the interesting sensational drama of "The Child Stealer" and the laughable farce, "Two in the morning; or, The Bachelor's Bedroom." The Association has expended considerable money in new scenery, painted expressly for this play, and in appointments, that shall put the drama upon the stage in a better manner than anything of the kind has ever been done in Canton. The magnificent orchestra of Livingston, Easton and Lockwood (six pieces) under the direction of our own talented musician, Prof. J. B. Livingston, will furnish the musical portion of the programme. Admission 35c.; reserved seats (for sale at Conkey and Sherman's) 50c.

An Adjourned Meeting—Of the Northern and Central New York Hide and Leather Association was held at Watertown, Tuesday, March 28. Representatives from a large number of towns belonging to the association were present. The discussion of the hide and leather interests was very general, nearly all present taking part. Nearly all the tanners seemed to have come to the same conclusion with reference to the profits of their business during the past three or four years. There seemed to be a prevailing conviction that the prices paid for hides and skins were so high that no margin was left for the tanner. After considerable discussion and interchange of ideas in regard to the business, it was held by the convention that fifty cents for the best was all that could be paid for this season's dairy skins without loss to the tanner.

The Gouverneur—Times says: Among the individual achievements of the Centennial year notable for novelty, will be the trans-continental horseback ride of Willard Glazier, a former student of the Gouverneur Wesleyan Seminary. He starts from Boston on May 1st, expecting to hitch his dust-covered nag in front of the Cliff House, San Francisco, at the end of six or seven months. He lectures en route and donates a portion of the proceeds to the G. A. R. posts along the line of travel. He will carry the Centennial banner fore and aft, and expects to speak before his largest audience on the plains when the gentle Sioux are smiling all aroung him. He only hopes they will not make a mistake and substitute a request for his scalp in place of their appreciative applause. These "noble red men" can't always be depended on. What is the subject of his lecture? Oh the two sides —17 and 18—of course.

The Courier and Freeman—Has exhibited so many eccentricities of late that we don't know whether to give it, or Mr. Lapham, credit for the following joke. In its report of the State Convention it gives the remarks of Mr. Hepburn in support of Mr. Curtis's amendment. In the midst of his speech Mr. Hepburn was interrupted by Mr. Lapham, who said:

"Will the gentleman from St. Lawrence allow me a question?"

Mr. Hepburn.—"Certainly."

Mr. Lapham.—"Is the gentleman aware that the New York delegation in 1861 were instructed to cast their vote solidly for Abraham Lincoln and that Silas Wright from St. Lawrence was selected to cast the vote?"

Mr. Hepburn was not "aware."

P. S.—We learn from good authority that Mr. Lapham's question is correctly reported above, which shows that he must be familiar with the life and times of Silas Wright.

The Albany—Correspondent of the New York *Times*, writing of the State Convention, says:

"The backbone of the opposition came from the friends of William A. Wheeler. Without the powerful aid of their influence the struggle against "instruction" would have been a very weak one. This fight, too, was made in direct opposition to that gentleman's wishes. He would have avoided a contest. But the men of Northern New York are men of earnest convictions and so thoroughly devoted to their favorite that they determined to fight for him, even in defiance of his expressed desires. It is useless, after this decided expression of their preference, to longer attempt to disguise the fact that in some shape his name is to be brought before the National Convention. That it will be so brought when his friends think the proper time has arrived there is not a doubt, and that it will be received with great favor in many quarters little suspected just now is equally clear."

—Chung has been received into the Baptist Church at Shanghai. His height is 7 feet 8 inches.

Deposit Fund.—*Editor Plaindealer:* As our honorable Senator and Assemblymen, our Board of Supervisors and others, may wish to know the result of the effort made to secure the amount of Bonds in the hands of the Comptroller belonging to the U. S. Deposit Fund, due March 1st., ($2,600.) please say that the same has been received and re-loaned. My thanks also to Hon. D. A. Moore and Hon. A. B. Hepburn for valuable documents.

T. BARNES,
Comr. U. S. Deposit Fund.

Supreme Court. — The County Court and Court of Sessions opened at the Court House on Monday forenoon, Judge Tappan presiding, assisted by Justices of Sessions, R. K. Jackson, of Morley, and A. S. Tucker, of Stockholm. Most of the day on Monday was taken up with arguments on motions.

At four o'clock p. m., the Grand Jury was sworn and received their charge. M. F. Collins, of Norwood, was appointed Foreman, and T. S. Clarkson, of Potsdam, was elected Clerk.

Michael White, having served his sentence of six months in Jail for his connection with the riot in which James Ryan was killed, and it being shown that diligent effort had been made to procure the bonds of $1,000 for good behavior required by his sentence, without success, he was discharged by order of the Court.

Henry Golway, of Louisville, indicted at the last term of Court for burglary and larceny, was arraigned and pleaded not guilty. His trial was put down for next term. Bail $500.

The trial of S. Leishman, of Waddington, for shooting Jardin, was put over to the next term of this Court.

On Tuesday morning a Jury was called on the case of Matthew Wainwright vs. James Kelley and the trial of the case commenced. The action is to recover a promissory note.

THE REDWAY MATTER.

In his charge to the Grand Jury, Judge Tappan performed, in a straight forward and commendable manner, what must have been to him a disagreeable duty, in calling their attention to the defalcation of the late County Treasurer and instructing them in their duty in the matter. His instructions were given in clear and unmistakable language, such as he is accustomed to employ on the bench.

Previous to this charge, Justice John Miller, of Canton, on the affidavit of E. S. Crapser, Chairman of the Supervisor's Committee who examined the accounts, had issued a warrant for Mr. Redway's arrest, and Deputy Sheriff Daniel Haskell, of Madrid, was sent to Potsdam on the four o'clock train to take Mr. Redway in custody. At this writing (Tuesday forenoon) Mr. Haskell is understood to have Mr. Redway in charge at Potsdam, awaiting the action of the Grand Jury before bringing him before Justice Miller, as the warrant requires. There seems no room to doubt that the Grand Jury will bring an indictment against him.

Hermon, — MARCH 31st, 1876. — *Editor Plaindealer:* For some unaccounted reason our little village has remained unrepresented in your columns to such an extent that, were it not for the fact of its gradually increasing reputation as the place where "goods can be bought cheap for cash," it might, for aught we know, sink into oblivion, except in the minds of its immediate citizens. It is quite evident that the merchants in this village, have found a new basis upon which to do business, and that is to sell goods at a small profit for cash, and we think that it is found to be of great advantage to both the buyer and the seller. It gives to the merchant the advantage of quickly converting his merchandise into ready money, which puts him in a position where he can order his goods, and be prepared to discount his bills, consequently he is enabled to dispose of his wares at a less figure than the man who is obliged to book every little bill and wait from six to eight months for his pay. It certainly looks as though the people in this vicinity and neighboring towns see the advantage of this way of doing business, from the amount of goods that they are continually taking from the place, and from the amount that are daily arriving which keeps a fresh stock of goods in the market.

Last Thursday about 11 p. m., an accident occurred at the Iron Ore Bed a short distance from this place which came very near proving fatal to several of the Miners. While taking out the ore some dirt from above caved in and came very near burying three of the workmen underneath it. Thomas Wallace received a severe injury on the head and also had his leg caught by the falling dirt which crushed both bones in his limb between the ankle and knee joints. Another was injured internally while several were less seriously hurt. The wounds were dressed by A. B. Cole, M. D., of this place. All are now doing well.

Commissioners Barnes and Goodale met Commissioner Cole at his office in this village last week to make out their report, and judging from what little we saw of their work, we concluded that they held a rather laborious position, and that they earned their money by the "sweat of their brow."

Dr. E. G. Seymour, has just returned from his sojourn in Florida, and is warmly welcomed back again by his many friends and patrons. He had been absent about four months. The Dr. is looking as hearty and good natured as ever.

The Cheese Factory situated at Kent's Corners, and owned by A. F. Gates, which was burned on the evening of March 13th, is to be immediately re-built, by Mr. Gates. This last fall of snow has enabled him to place all of the necessary timber and lumber on the spot ready to commence work as soon as the weather will permit. It is to be furnished on the inside with the latest and best facilities for the manufacture of cheese.

—For fever and ague, and the genuine shaking ague, we would recommend our readers to try Renne's Pain Killing Magic Oil. Its faithful use has cured some very severe cases. It is a good remedy to have in the house for many of the ills that flesh is heir to. Try it.

Treasurer's Accounts. — The Potsdam *Courier and Freeman* gives quite a full summary of the results of the investigation into the affairs of the late County Treasurer, from which we condense the following:

Messrs. Crapser, Mould and Matteson, the committee appointed by the Board of Supervisors of this county on the 19th day of November, 1875, with instructions to "examine the books and accounts of ex-County Treasurer Redway, to settle with him and to destroy all paid up bonds and coupons," completed their examination last Thursday afternoon, (March 23d). This committee met for the first time, on the 3d of January, 1876, and at once began their work. They have spent about six weeks in actual labor in making the examination, proving their work, and in making out their report, which is a very short time considering the amount of work performed. This committee is entitled to the thanks of the county for the punctuality and diligence with which they have applied themselves to this investigation.

Their report covers about 170 pages of legal paper and great care has been exercised in giving everything in order, precision and minute detail. This report is divided into four parts, as follows: "Tax account," "Bond account," "Deposit Fund" and "Miscellaneous." The three last, are comparatively short. The report in regard to the tax account covers about 135 pages. The tax account is made up in this report by taking each one of the eighteen years separately, beginning with the year 1858, and by giving the particulars in regard to each town in the county for each one of these 18 years, taking the towns alphabetically each year.

The following represents the deficiency by terms:

1st Term of office,	1858 9-60..	$ 1,059 06

On the day of adjournment the two committees met to compare results, and we understand that Messrs. Knowles and Clarkson concur in the report of the Supervisors' Committee.

A special meeting of the Board of Supervisors to consider the report has been called by Stillman Foote, Esq., Clerk of the Board, to meet in the Court House at Canton, Wednesday, April 12, at 12 M.

School Fund.—The following are the amounts of public money appertained from the Common School Fund of the State to the several school districts of the town of Canton. We are requested by Supervisor Russell to say that the money will be paid over by the County Treasurer in the course of a few days, after which the orders of Trustees of the school districts may be presented at the Bank of S. D. Hungerford & Co., where they will be paid:

GLASS WARE.

The very satisfactory results of the past three months' experience in selling goods upon the pay down principle has illustrated the fact of its being the only true way. Thereby treating all customers alike, and proving absolutely that goods can be sold for less profit than on the credit system. The undersigned, having adopted the

Ready Pay System,

Can and will sell goods cheaper than any establishment that sells on credit. For proof of the above assertion.
