## University Notes

The equipment for the agricultural school is coming on almost every train and is being stored.

President Gunnison was called to Malone on Monday to attend the funeral of Mrs. Mary Leighton, a prominent resident of Malone.

A fine portrait of Mr. E. H. Cole has been hung in the reading room which bears his name. It is thought by many to be the best of all the portraits on the hill.

A large invoice of books has been added to the Herring Library, the gift of H. F. Gunnison. He has been in the habit of sending collections of this kind from time to time.

Mr. Tomlinson, the new physical director, has assumed charge of his work. He takes the place of Mr. Kersey, who has accepted a position in St. John's College, Brooklyn.

Several new people are added to the teaching force of the University. Miss Elinor Post takes the post of librarian made vacant by the resignation of Mrs. Hulett. Prof. H. E. Cook comes to the deanship of the agricultural school. Mr. Percy Stewart takes charge of manual training and Miss Lena Bray will be the Prof. of domestic science.

A large number of the old students have returned, more than in any previous year. The fear that there might not be boarding places for the new students has been groundless. All who have come are provided for and there are places to spare. Registration of freshmen takes place Wednesday morning, and the other students in the afternoon. There are indications of good classes in the college and the agricultural school, over a hundred, all told.

## Mrs. Arthur T. Gardner

Mrs. Arthur T. Gardner died at Mountain View Sunday night, September 18, of tuberculosis. The body, accompanied by her husband, was brought to Canton, the funeral being held at the residence of J. W. Rushton, of Canton, services being conducted by Dr. J. M. Payson. The burial was at the former home of Mrs. Gardner at Bucks Bridge.

Mrs. Gardner had been sick about a year, the past three months having been spent at Mountain View in the hope that the Adirondack climate would prove beneficial. Her maiden name was Lena Gertrude Hemenway, daughter of Mr. and Mrs. Herbert F. Hemenway, formerly of Canton. She was born in Bucks Bridge in 1884 and received her education in Canton High School. She married Mr. Gardner March 30th, 1904. She is survived by her husband and parents and one brother, Byron, of Watertown. Mr. Gardner and other relatives of the family are receiving the sincere sympathy of a host of friends. Mr. Gardner lived in Canton a number of years where he was in the employment of A. J. Runions in his photographic studio. He is a prominent Mason and a popular young man. This is the second child that Mr. and Mrs. Hemenway have lost through this disease, a son having died with it about two years ago, who formerly resided in Canton. The family wish to thank their many friends who gave kindly assistance during the sickness and death of Mrs. Gardner.

## Silas Wright Grange

At a recent meeting of Silas Wright Grange a handsome portrait of Silas Wright, which has adorned the walls of Grange hall, was loaned to the Library Association and placed in the Benton Library.

During the lecturer's hour the topic, "My Method with Cows", was taken up for discussion. C. I. Bailey described a year's experience in winter dairying. His cows freshened in late July and early August. He gave them a grain ration of 8 lbs. daily per cow of ground peas and oats until January, when he began feeding them the same amount of union mixed feed and continued it until April. Then he discontinued the grain in order to reduce the milk flow. His cows are natives and the milk is sold at the milk station. His receipts for the year were a fraction over $87.00 per cow. The peas and oats were ground on his farm. He sold straw enough to pay for the grain he bought and he is well satisfied with his experiment.

E. S. Balcome, expressed it as his opinion that more than 8 lbs. of grain could have been profitably fed. A. G. Akin said that he regulates the grain ration by the amount of milk the cow produces, one pound of grain for each three pounds of milk.

## Board of Trade

New York quotations today are cheese specials 13 to 14 cents, fancy 12¾ cents. Cable 61. Receipts 25,000, exports 2,000. Butter 24 cents, market firm. Receipts 50,000, exports 1,000.

Prices remain the same as last week. While the season is advancing conditions do not seem to warrant an advance, although the amount of strictly fine goods is not large. The medium and under grades are accumulating and a drag on the market. Rain is badly needed over a large portion of the producing district in the east and the same conditions obtain to a large extent in the west. The committee declare the market firm at 24½ cents, same as last week. Last year sold for 29½ cents. At Elgin, Ill., for 25 cents, at Jamestown, N. Y., for 22 cents.

The cheese market shows an advance of ¼ a cent through the week with the market steady at the price. Sold for 12½ cents, last week for 12 cents, last year for 13¾ cents. English markets are steadier at 12¾ to 13¾ cents. At Western points sold for 11¾ to 12 cents.

A. T. MARTYN, Secretary.

## Village Sued for $5,000

Through her attorney, Joseph F. Brown, Genevieve A. Harmon, of Morley, has sued the village of Canton for $5,000. July 11th she fell on what she claims was a defective sidewalk on Pine street, breaking three ribs.

The village board will soon pass an ordinance imposing a fine of $100 on every property owner who delays longer than twenty-four hours in repairing his walks after notification that repairs are needed from the board. They also are considering the advisability of requiring that all new walks be laid with cement or stone. Wooden walks are a constant menace and source of expense.

## The Honored Dead

On Wednesday, September 30, the handsome monument recently erected at Hermon to the memory of those who served in the war of the Rebellion 1861-65, will be unveiled and appropriate dedicatory exercises held.

A procession will form at the railroad station at 10:30 a. m., on arrival of the train which brings all guests from Watertown and intermediate stations, also from Ogdensburg, Massena, Potsdam, Canton, and intermediate stations. The procession will march thence to the monument, where the exercises will be held and an address delivered by Hon. M. R. Sackett, U. S. Counsel at Prescott, Ontario, C. W.

The Commander of the G. A. R., Department of New York, with all the commanders and officers of the G. A. R. in St. Lawrence, Jefferson and Franklin counties, and comrades of all the Posts, are expected to be present, also all the members of the Women's Relief Corps of our county, and all loyal citizens who can reach us.

## $6.00 New York Excursion

The New York Central will run the annual excursion to New York from the R. W. & O. division on October 6 and 7, 1908. Tickets good only in day coaches will be sold for morning and evening trains above dates at rate of $6.00, good to return until October 16th inclusive. Through special trains will be run on October 6th direct to Grand Central Station.

Folders showing time of trains and complete information may be obtained of ticket agents or by writing W. H. Northrop, General Agent, Watertown, N. Y.

THE annual meeting of the United Helpers in Ogdensburg occurs early in October and as yet very little money has been paid in by the members of Canton branch. Our experience in the past proves that this is not the result of a lack of interest or sympathy on the part of the women of Canton, in this good cause, but is due entirely to thoughtlessness. Please remember how much labor is involved in the task of collecting from about sixty persons to say nothing of the fact that few people like to ask for money. Remember also that the collector who calls for your dollar has no personal interest to serve and besides paying her own money is spending time and thought in the cause of the destitute little ones of St. Lawrence county. Potsdam has had "tag day" for the benefit of the home and raised $350. Cannot Canton do a little better than last year? Dues may be handed to any of the officers or to Miss Griswold, at Dunn's store, and the treasurer's books will close September 30th. Eva C. Spaulding, Pres. Canton Branch.

CARL S. COIT, son of Rev. and Mrs. O. B. Coit, formerly of Potsdam, was shot by his brother near Joe Injun Pond one day last week and seriously injured. The brother Lawrence shot at a deer and missed him. The bullet passed on into the woods and penetrated the hip of Carl. The boy was brought out to Potsdam and taken to Ogdensburg, where the bullet was extracted by Drs. Madill and Morgan. It is said that the hip was badly shattered and although the boy will recover, it is believed that he will be permanently crippled. Lawrence did not mistake his brother for a deer. The use of powerful rifles in the woods is an actual menace, as no one can tell how far the bullet will go nor what course it will pursue.

THE several Circles of the Women's Library Association will hold their annual reception Monday evening, October 5, at the Benton Memorial Library. As Japan is to be studied this year the reception will be Japanese in character. A cordial invitation is extended to the ladies of the Association, their husbands and to all ladies desiring to become members of the association. The year books will be distributed at this meeting. An enlarged membership is urged. The yearly dues will be received at this meeting.

John Webb, Jr., after a year's absence, is on a visit to his family here. He has been engaged in mining pyrites in Western Ontario, about two miles west of Fort William. Fort William is situated on Thunder Bay at the north western end of Lake Superior. It is an important point on the line of the Canadian Pacific Railroad, where some of the largest grain elevators in the world have been erected to handle the product of that great grain growing section reaching from the international boundary line some 300 miles north. The mines our friend Webb has been operating are at present 50 miles from the railroad but within three months will have an outlet over the Transcontinental Railroad which is being built by the Dominion government and a railroad the Grand Trunk is building from Fort William westward. These roads will form a junction within three miles of the property Mr. Webb is operating and will give them lake transportation to all parts of the Great Lakes. Up to this time the work at these mines had been that of development. They are, however, ready for a huge output and shipments will begin as soon as the road is laid, which will be before December 1st next. It would seem from what Mr. Webb says that his company have a very valuable property, the ore running as it comes from the mine 48 to 49% sulphur and the ore body has been opened some 2,000 feet in length and proven to be from 66 feet at the narrowest part to 93 feet in width, uniform in richness throughout. We wish friend Webb every success in his new field of operations.

### THE MIGHTY POWER OF MI-O-NA

Mi-o-na, that extraordinary and perfect stomach tonic, will relieve dyspepsia in twenty-four hours.

It will cure, and is guaranteed by Geo. S. Conkey to the readers of the Plaindealer to cure the most pitiful cases of dyspepsia, if taken according to directions.

Mi-o-na tablets not only cure dyspepsia, but all stomach disturbances, such as vomiting of pregnancy, sea or car sickness, and the stomach sickness after excessive indulgence.

Mi-o-na cures by strengthening and invigorating the flabby stomach walls, and after a course of Mi-o-na treatment, constipation, if there is any, will entirely disappear.

Read this from the president of a New York corporation:

"I have been a terrible sufferer from dyspepsia and gastritis for two years. The most eminent physicians prescribed for me with no effect. I have been absolutely cured by your Mi-o-na tablets. The first one gave me a relief almost incredible."—Herbet H. Taylor, 501 West 148 Street, New York City.

Mi-o-na is a most economical treatment—a large box of tablets only costs 50 cents at Geo. S. Conkey's and the dyspeptic, nervous or otherwise, who does not give them a trial, is losing an opportunity to regain health.

The Providence "Journal" talks about "the unreasonable boom in Wall street." A little less than a year ago it was probably scoffing at the "unreasonable" slump.

### Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies.
