NATIONAL LOAN FUND LIFE ASSURANCE SOCIETY OF LONDON

26 Cornhill.—Empowered by Act of Parliament.

Capital—L500,0000, or $2,500,000.

GENERAL Agent for the United States, and British North American Colonies, J. Leander Starr, 62, Wall st, New York, Physicians to the Society—(Medical Examiners,) J. Kearney Rogers, M.D. 110 Bleecker st. Alexander E. Hosack, M. D. 101 Franklin street.

N. Y. Branch—JACOB HARVEY, Esq. Chairman.
John J. Palmer, Esq, Jonathan Goodhue, Esq.
James Boorman, Esq. Geo. Barclay, Esq.
Sam'l S. Howland, Esq. Gorham A. Worth, Esq.
Sam'l M. Fox, Esq.

The rates of this Society are as low as those of the American Companies, and lower than the scale adopted by many London Offices. Loans granted to the extent of 2-3ds the amount of premiums paid, after the lapse of a year.

Persons insured in the United States on the scale of "participation" enjoy the important advantages of sharing in the whole business of the Society, which in England is very extensive.

The public are respectfully requested to examine the distinguishing principle of this Institution—their tables of rates—their distribution of profits—and the facilities afforded by their loan department—before deciding to insure elsewhere.

The following are among the advantages held out by this institution, which will be found most favorable to the assured, and such as are offered by no other Life Insurance Company in the United States, viz:

The peculiar advantages secured to the assured by the principle of the LOAN Department: thus blending the uses of a Savings Bank, with Life Insurance.

A sum to be permanently invested in the United States, in the names of three of the Local Directors as Trustees—available always to the assured in cases of disputed claims, (should any arise,) or otherwise.

The payment of premiums, half-yearly, quarterly, or monthly, at a trifling advance upon the annual rate.

No charge for stamp duty.

Thirty days are allowed after each payment of premium becomes due, without forfeiture of policy.

Travelling leave extensive and liberal, and extra premiums on the most moderate scale.

Conditions in the policy less onerous to the assured than usual in cases of Life Assurance.

The actual and declared profits (published in successive Reports) affording sure data for calculations of the value of the "bonus" in this institution.

The rates "for life with profits" are lower than those of any other foreign Company effecting Life Insurance in New York.

"An Act in respect to insurance for lives for the benefit of married women."—Passed by the Legislature of New York, 1st April, 1840.

§ 1. It shall be lawful for any married woman by herself and in her name, or in the name of any third person, with his assent, as her trustee, to cause to be insured, for her sole use, the life of her husband for any definite period, or for the term of his natural life; and in case of her surviving her husband, the sum or nett amount of the insurance becoming due and payable by the terms of the insurance, shall be payable to her, to and for her own use, free from the claims of the representatives of her husband, or of any of his creditors; but such exemption shall not apply where the amount of premium annually paid shall exceed three hundred dollars.

§ 2. In case of the death of the wife, before the decease of her husband, the amount of insurance may be made payable after death to her children for their use, and to their guardian, if under age.

The recent case of Amory Chapin, Esq., of Providence, R. I., (being in perfect health at the time,) 44 years of age, who insured his life for $10,000 on the 21st of August last, while on a visit to New-York, soon after his return was taken ill and died on the 4th of October following, should be an example for others to make similar provision for their families. His executors brought in their claim in due form, and the amount being approved of by the local board, the general agent paid the amount of insurance, $10,000. Thus within 3 months from the date of Mr. C.'s application, his family received $10,000 for what cost of his means but $372.

Pamphlets containing the last annual Report, and the Society's rates, together with blank forms and the fullest information, may be obtained on application to the subscriber.

References of the highest character in the United States, given to applicants, if required, as to the standing, wealth and security of the above institution.

Farmers,

ANOTHER "labor-saving machine" is added to the catalogue of Agricultural Implements, to wit, Rogers' Patent Improved Spring Steel *Cultivator Teeth.*

It is now satisfactorily proved that this kind of Cultivator will save at least two thirds of the time occupied with the "drag," or Corn Harrow, in all cases, except on loamy ground. We will add but one certificate:

"We, the undersigned, hereby certify, that we have used "D. B. Rogers Patent Steel Cultivator Teeth" the past season in fitting our fallows, after breaking up, and do with confidence assert, that they are far superior to any Agricultural implement heretofore in use in this section. Dated March 17, 1846."

JAS MUNSON, " "
H. LATHROP, Genesee "
B. F. CASE, " "

Benjamin Wood of Dryden, President of the Agricultural Society of Tompkins county, has one in use, and says he thinks he will save at least twenty five dollars this season.

These Teeth can be had in this county only at Squires & Wood's, and at L. & L. L. Treman's, Ithaca. may 12. [14]

LIFE INSURANCE.

BY THE NAUTILUS, (MUTUAL LIFE) INSURANCE COMPANY.

OFFICE No. 58 WALL STREET.

THIS COMPANY, recently organized upon the improved and deservedly popular principle of Mutual Assurance, will confine its business exclusively to Insurance on Lives.

It commenced with a capital of $50,000, which will be continually augmenting as its business increases. The rates of premium correspond with those of other American Companies.

One of the peculiar advantages attending insurance with this Company is, that all the assured share annually in its profits and are interested in its success, for its charter provides "that each and every member shall be annually credited with his proportional share of the amount of premiums earned, after deducting losses and expenses; but in no case shall his share of loss exceed the amount of such premium." These earned premiums or profits will be safely invested by the Company, constituting a permanent fund, annually augmenting for the benefit and security of all persons interested.

PORT OF ROCHESTER.
Forwarding & Commission Business.

THE subscriber is now prepared to store and forward GOODS to any port on Lake Ontario, River St. Lawrence, the Upper Lakes, Ohio Canals, and Mississippi River, all kinds of Goods and Merchandize, which may be consigned to his care.

His facilities are such that all unnecessary detention will hereafter be prevented. Two Daily Lines of Steamers, leave his dock at the foot of Buell Avenue, on the west side of the river, for the various ports on Lake Ontario, and River St. Lawrence. A regular line of Steam Propellers, and a Line of Sail Vessels, will also leave the same point for the Upper Lakes.

Emigrants for the Western country will save expense and the inconvenience of transhipment, by taking the Lake at Rochester, the Welland Canal being now enlarged, admitting steam vessels of 500 tons burthen.

Goods in store kept insured against fire, unless stipulated to the contrary when received.

Liberal advances made on all consignments of produce and merchandise when desired.

Notices of Freight, or inquiries relating to the arrival and departure of Boats, can be made at the Steamboat Office, next door to the Eagle Hotel. ALEX. KELSEY.
