FISK & HATCH,
Bankers,
AND DEALERS IN
GOVERNMENT AND OTHER DESIRABLE SECURITIES.
No. 5 Nassau Street New York,
Recommend to Investors the First Mortgage Bonds of the
CENTRAL
Pacific R. R. Co.

This Company is Constructing, under the patronage of the UNITED STATES GOVERNMENT, the Western end of the great National Railway across the Continent. Their line will extend from Sacramento, California, across the Sierra Nevadas, to the California State line, traversing the richest and most populous section of California, and thence through the great Mining Region of the Territories, to the vicinity of Salt Lake City. It forms the sole Western Link of the only route to the Pacific which is adopted by Congress and aided by the issue of United States Bonds.

Their road is already completed, equipped and running for 95 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c beyond that point has been accomplished.

The first Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

First—The rate of Interest is Six Per Cent in Gold, payable semi-annually in the City of New York.

Second—The Principal is payable in Gold at maturity.

Third—The cost of the Bonds, Ninety-Five Per Cent, and accrued Interest, is Ten Per Cent. less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth—The United States Government provides nearly half the amount necessary to build the entire road, and looks solely to a small percentage on the future traffic for re-payment.

Fifth—Owing to this liberal provision, accompanied with extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.

Sixth—The security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

Seventh—The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the interest absolutely certain.

Eighth—At the present rate of Gold they pay nearly 8% Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi-annual Gold Coupons attached, payable in New York and are offered for the present at 95 per cent. and accrued Interest (in currency,) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made to draft on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by express free of charge. Inquiries for further particulars, by mail or otherwise, will receive prompt attention.
