ASTROLOGICAL FORECAST: By Sydney Omarr. Friday, January 4, 1974. The Aquarian child seldom is satisfied only with schoolwork.

ARIES (March 21-April 19): Avoid extravagance. You will have everything at once, know it and pull in financial reins. Review budget. Friend with grandiose notions means well but probably is misinformed. Protect your own interests. Don't delegate responsibility.

TAURUS (April 20-May 20): One in authority may expect too much, too soon. Key now is to speak up, to express yourself in definite manner. You will receive respectful attention. Leo, Aquarius individuals could be involved. Opportunity for advancement is on horizon.

GEMINI (May 21-June 20): Tread lightly; be subtle rather than direct. You frighten prospects if tactics are of overwhelming variety. Keep a secret. Look beyond the immediate. Teach and learn. Sharpen intuitive process. Family member surprises with unorthodox request, procedure.

CANCER (June 21-July 22): Friend who seems generous may be so - with your money. Know when to draw line. Be sociable but realize you cannot actually buy affection. Many around you now appear to be throwing caution to winds. Be grown-up enough to recognize foolishness when you see it.

LEO (July 23-Aug. 22): Be careful with details. Don't overlook what appears minor but could be major in importance. Scorpions, Aquarius persons could figure prominently. Mate, partner wants to expand, spend, reach settlement. Check with one in authority.

VRGGO (Aug. 23-Sept. 22): Communications (and) occurs unless you double-check. Take nothing for granted. Investigate. Find reasons. Analyze. Do some detective work. You are on verge of creative discovery. Know it and be confident. Gemini could be in picture.

LIBRA (Sept. 23-Oct. 22): Check diet. Also, consult with physician - cycle is such that
