

I Our Bodies Wear

Every time we move a muscle we destroy some tissue. Our entire bodies, including the vital organs, are constantly wearing out.

Signor's Beef, Iron and Wine

affords in a single dose more real body building material than you might get from half a dozen meals; and it is material ready to give you strength and energy immediately after taking.

FOR JUSTICE DEUEL'S REMOVAL

Petition Signed by Jerome, Osborne and Shepard to Be Filed Soon. New York, March 1.—The petition to the Appellate division asking for the removal of Justice Joseph M. Deuel of the Court of Special Sessions from the bench has been prepared and will be filed in a few days.

The charges have been prepared by Edward S. Gans, formerly an assistant district attorney, and in brief they set forth the evidence brought out at the Hapgood trial showing Justice Deuel's relationship with Town Topics and the Ess Ess Publishing Company and the moneys he received from both.

Justice Deuel has been in Florida and was said at his home last night that he had not returned.

PIP LINE ACROSS PANAMA. New Steamship Company's Vesseig to Be Used in Oil Trade.

New York, March 1.—The Times today says: "The United Steamship Company was incorporated in Trenton, N. J., last Tuesday with \$1,000 capital. It was learned yesterday that this company had purchased the steamships Minnetoka and Minnewaska, each of about 3,800 tons, previously used for the oil trade on the Great Lakes.

The United Steamship Company is said to be affiliated with the Union Oil Company of California, a concern which came to life by the consolidation of seven small independent concerns in the Far West.

TO TAP MINERAL BELT.

American Capitalists Will Build a Railroad in Australia.

San Francisco, March 1.—Among the passengers who arrived yesterday on the liner Ventura were three young American engineers who have been surveying through some of the wildest portions of Australia.

The purpose of the road is to tap a rich mineral belt discovered long ago by American prospectors and to bring the ore to tidewater.

THE ARMY BILL.

Members of Appropriation Committee Try to Reduce Figures.

Washington, March 1.—The details of the provisions of the army appropriation bill occupied the House of Representatives yesterday.

Throughout, members of the Appropriations Committee, headed by Chairman Tawney, were in controversy with Chairman Hull and the members of the Military Committee.

Mr. Hull retracted his former criticism of Minister Rockhill on the question of the return of the United States' share of the Boxer indemnity.

MANY WERE IX DANGER.

Early Morning Brooklyn Fire Drives Occupants from Houses.

New York, March 1.—The lives of more than 30 persons were endangered and property valued at \$40,000 was destroyed by a fire in the Williamsburg section of Brooklyn early today.

CHRISTIAN ENDEAVOR.

Prayer Meetia* Topic For the Week Befflaala* Merca 4.

By REV. S. H. DOYLE. Topic—What is true happiness? The worldly idea, the Christian idea—Luke 11:20-28; 1 John 11:12; II Cor. vi: 10; Phil. iv. 47. (Consecration meeting.)

Horace Bushnell has defined happiness as 'that which happens or comes to one by a hap—that is, by an outward befalling or favorable condition. Some good is conceived, out of the soul* which comes to it as a happy visitation, stirring in the receiver a pleasant excitement.' And happiness in some form or another is the desire and ambition of every human life.

The topic suggests the consideration of two ideals of happiness—the world's ideal and the Christian's ideal, between which there has been a conflict through all the Christian centuries.

The superior of Christian happiness over worldly happiness must be conceded, no matter which our personal ideal may be. Christian happiness grows sweeter and stronger with age, while worldly happiness declines as we advance in years.

The superiority of Christian happiness over worldly happiness must be conceded, no matter which our personal ideal may be. Christian happiness grows sweeter and stronger with age, while worldly happiness declines as we advance in years.

ON TRIAL FOR MURDER. Doctor Haugh Believed to Have Killed Father, Mother and Brother.

Dayton, O., March 1.—The trial of Dr. Oliver C. Haugh, indicted for the murder of his mother, father and brother by a deadly poison, afterward firing the family home and cremating the bodies of the victims in the flames, was begun before Judge Brown of the Common Pleas court yesterday.

How to Warn Vp. The English Christian Endeavor Times gives the following excellent rules for starting a fire in a cold Christian Endeavor society:

First.—Let the social committee get all the sticks together—I. e., have the seats upside down at the back of the meeting room, placing them one by one at the front as the members come in.

Second.—Let the prayer meeting committee bring a box of matches—I. e., provide opportunities for every one to take part; and let them go down on their knees to kindle the fire.

Third.—Let the sunshine committee use the poker judiciously. "Provoke unto love and good works."

Fourth.—Let the lookout committee blow the bellows. Look up and seek to infuse a divine glow into lukewarm members.

Fifth.—Let the evangelistic committee take "a live coal from off the altar." Burning lips fit Endeavorers to "pluck brands from the burning."

Above all, let each member stir up the gift within him to a flame; so shall others be set on fire, and it will be seen how great a matter a little fire kindleth.

PRACTICE OF OSTEOPATHY.

Bill Regulatng Subject of Interesting Hearing at Albany.

Albany, March 1.—One of the largest and warmest hearings of the session took place yesterday on the bill of Senator Hinraan to regulate the practice of osteopathy in this State.

Martin W. Littleton, formerly borough president of Brooklyn, appeared as the champion for the osteopaths.

Mr. Littleton's arguments were interspersed with humorous references to the medical men, and his declaration that not one of the doctors had agreed on the ground of opposition to the bill created a roar of laughter.

Dr. Abraham Jacobi of New York city, dean of the medical profession of the State, insisted that the only thing for the osteopaths to do was to be regularly admitted by passing the present examinations.

Dr. Algernon Bristow of Brooklyn declared osteopathy simply practical manual therapeutics, and they had the one treatment for every disease from smallpox to appendicitis.

Dr. Frank Van Fleet of New York city advocated one board of examiners to examine all persons desiring to practice. After they had passed they could practice allopathy homeopathy or osteopathy, or anything else they desired.

Jantes O'Brien, counsel for the Erie County Medical Society, called attention to the fact that one so-called college of osteopathy had been closed and a grand jury investigation was under progress.

Dr. Charles Hazzard of New York said that the measure sets fully as high a standard for the osteopaths as the medical practice act requires of medical men. It was for this reason, he said, that the State Homeopathic Association, after seeing a copy of this bill, adopted unanimously a resolution to withdraw all opposition.

an umbrella on leaving a train that i will assure you of not leaving it. I'll tell you what that thing is. "When you sit down in the car place the umbrella on the outside, between you and the aisle. Thus the umbrella is a fence. It bars you in. When you jump up hastily to get off at your station you find the umbrella is left in the train. There is a thing to do with it whether you would or not"
