VOLUME VI. BUFFALO, N. Y., MONDAY EVENING JANUARY 15, 1866 NUMBER 12.

BY TELEGRAPH.

LAST NIGHT'S REPORT.

Statement by Capt. McStother.

BOSTON, Jan. 12.

Capt. McStother makes the following statement:

Left Liverpool Nov. 18th, with 275 passengers, had heavy gales most of the passage. On the 21st of December experienced a hurricane, ship laboring very heavily. At midnight sprung a leak, found four feet and eleven inches of water in the hold. Orders were then given to put in all the pumps, six in all. The passengers were ordered up and some put to work on the pumps and others discharging cargo. About 300 tons of cargo were thrown overboard. As the ship was as far as long. 53. 50 W., it was my intention to put into Halifax, but the Fredonia hoaving in sight on the first of January, the passengers became dissatisfied and wished to leave the ship, refusing to pump any longer. I offered to pay 150 of them daily wages if they would stay on board and pump.

On the 3d of January the passengers and crew abandoned the ship, which had 3 feet and 3 inches of water. We had four deaths on the passage and one seaman named Wm. Cavanagh fell from aloft and was instantly killed.

Capt. Burke displayed great magnanimity on the occasion and his conduct throughout was marked by kindness. Having got all hands off safely, it was found impossible to stow away so many people on board his vessel which was a small sized bark, but he courageously took the responsibility of throwing over sufficient cargo to make room for them, and nearly all the goods between decks went overboard. All hands were then put on short allowance as his own stores were getting low, and no provisions were saved from the ship to feed the crowd of hungry emigrants. Each person was allotted half a pint of water and one biscuit perday, which is the only sustenance they have received for the past 11 days. As soon as the above facts became known after the bark telegraphed below this port, a steamer was despatched to tow her up, and on her arrival the survivors were placed in Riddell's large carriage hall, and had all their wants generously attended to by the city authorities.

President Juarez.

WASHINGTON, Jan. 14.

Official intelligence from the city of Chihuahua up to the 8th of December, has been received to this city. President Juarez instead of being at San Antonio, Texas, as has been represented, was resting in quiet at Chihuahua. He writes to a friend of his as follows: The commanding officers of these States, the frontier States, and political leaders have all expressed their approval of the extension of my term, and I have reason to believe that the same will happen in the other States of the Republic. The French, it seems, had sent another expedition to Chihuahua. Should this be in great force, the Mexican Government will again abandon that city and go to some other convenient point of the Republic.

While the woolen manufacturing of the country have doubled since the commencement of the war, it is shown by official figures that in the four years ending June 30th, 1865, the wool, shoddy and woolens imported make an aggregate of $130,000,000, of which the unmanufactured wool, amounting to 287,000,000 pounds, costing $35,000,000. Nearly all the imports of wool under the late tariff came at 3 or 4 cents per pound, the duty averaging less than five cents. The wools of Australia and South Africa, which are fine meriuos, are invoiced at less than 24 cents per pound.

Assistant Post Master General Ferelly will leave Washington to-morrow for various parts of the South, in order to make better arrangements for mail facilities.

A circular has been issued by Brev. Maj. Gen. Donalson, Chief Quarter Master of the Military Division of Tennessee, requesting surgeons, chaplains, agents of the Sanitary and Christian Commissions, quarter masters, officers and soldiers, who may have served in the army at any time during the war in Kentucky, Tennessee, Mississippi, Alabama or Georgia, having knowledge of the location of cemeteries, places of burial, or of the scattered graves of any of our brave soldiers in the States above named, to send to Capt. E. B. Whitman, Assist. Quarter Master of Murfreesboro, Tenn., such information as will be useful to him in identifying in all cases of burial wherever our armies have served.

Capt. Whitman has been assigned to the special duty of visiting the battle grounds, cemeteries and places where the Union dead have been interred in that military division, and to report thereon with a view to the establishment of national cemeteries, and the removal to those of the dead on the plan of those already in process of completion at Chattanooga and Stone River. The above is a part of the general plan already successfully inaugurated by Maj. Gen. Meigs.

WITHDRAWAL OF TROOPS.

It may be stated with reference to the recent dispatches to the Mobile Advertiser, touching the withdrawal of troops from Alabama and Georgia, and that in acting upon the application of Gov. Parsons to withdraw them from the former State and to arm the local militia, Lieut.-Gen. Grant has made the following reply:—

For the present and until there is full security for equitably maintaining the right and safety of all classes of citizens of the States lately in rebellion. I would not recommend the withdrawal of the United States troops from them. The number of the interior garrisons might be reduced, but a moveable force, sufficient to insure tranquility should be retained. While such a force is retained in the South, I doubt the propriety of putting arms in the hands of the militia. An elaborate plan for the organization of the regular army, drafted by Brig. Gen. James S. Belslin, has been placed in the hands of members of Congress.

It is for an army of 160,000 men, makes the regiments ten companies strong, drops two second Majors in the cavalry and gives two second Lieutenants to a company, increases the grades of the army and provides for the appointment of one General-in-Chief, three Generals, sixteen Major-Generals and thirty-two Brig.-Generals. Also for a field staff and department staff. One half of the promotions are to be made according to seniority and the other half according to merit, to be determined by Boards of Examiners. It requires an officer to serve two years in the line before entering the staff of the army and makes West Point a staff school. Any one who can pass the necessary examination may enter the army as 2d Lieutenant. The plan exempts officers salaries from taxation and allows officers to be retired after 25 years service and giving them right to hold civil office while in retirement. It incorporates the old regular army as a part of the new army, and prescribes rules for uniform leaves of absence, furloughs and courts martials.

A bill of twenty-two sections has been prepared, comprising the plan proposed, and an elaborate pamphlet form accompanies it

FROM WASHINGTON.

NEW YORK, Jan. 14.

The *Herald's* Washington special says: This is the first week in which there has been no new organizations under the national banking system. The number organizing under the Government system has been falling off rapidly during the past three months. The $300,000,000 capital authorized by Congress for the national banks having been absorbed by them. The whole number now in existence is sixteen hundred and twenty-six.

SALE OF PUBLIC LANDS.

The following extraordinary exhibit of activity in the sale of public lands was received this morning at the General Land Office at East Claire, Wisconsin, 11,000 acres were entered for actual settlement during the month of December at St. Peters, Minn., 27,000 acres, at Region City, Oregon, nearly 8,000 acres were entered in November, and at Humboldt, Cal. The cash sales for November amounted to nearly thirty-five hundred dollars.

The Creeks and Seminoles of the Southern Indian agency have a delegation of nine stalwart braves on a visit to their great father. Thus far they have only succeeded in seeing the commissioner of Indian affairs. Of course they desire increased bounties for their tribes, and a special donation for themselves.

The applications for pensions have now dwindled down to an average receipt of 160 per day. This is a falling off from 44,500 applications that were received daily for many months after the close of the war. The proportion that are favorably acted upon is about one in five.

Reply of General Sherman.

NEW ORLEANS, Jan. 13.

The Alexandria, La., Democrat publishes a letter from Gen. W. T. Sherman to a friend in Rapides Parish, in which he contradicts the general impression that his appointment as Superintendent of the Louisiana Military Academy at Alexandria before the war, was due Bragg or Beauregard. He also controverts the impression that when he left Louisiana he was pledged not to enter the service against the South. He did say at Alexandria that war would be the inevitable result of secession, and at New Orleans on the eve of his departure for St. Louis, he might have said to Bragg he was not going North to seek military service which was true.

He refused to enter the volunteer force first called by President Lincoln, because he considered that the whole South would become involved in the war, which could be handled only by vast armies of regulars. General Sherman concluded as follows: "I wish the South well, and if I have been a scourge there, how much better that it was I than Ben Butler, or some other of that school."

The San Antonio Herald of the 3d instant says it was mistaken in reporting the arrival of Juarez from El Paso, and that was General Ortega who came to San Antonio.

Gen. Sheridan in reply to a letter in the New York News from Gen. Early contradicting the United States official reports of the confederate forces in losses in the Shenandoah Valley, has published a letter in the Crescent, showing that he captured as prisoners more men than Early states to have been his entire force.

ORDER REVOKED.

The Adjutant General of the Mississippi has revoked the order to disarm the negroes, the apprehended danger having passed over.

Schuyler Colfax.

POUGHKEEPSIE, Jan. 14.

Nearly 2000 persons assembled at Pine Hall in this city last night to listen to an address from Schuyler Colfax. After the lecture Mr. Colfax accompanied by Mayor Innis, whose guest he was, proceeded to the residence of the latter. A short time thereafter nearly 1000 people, including citizens and students, headed by Eastman's College Band, tendered Mr. Colfax a serenade. In response to the honor shown him, Mr. Colfax thanked all concerned, he felt grateful for the melody contributed to his happiness. He alluded to the rebellion, contrasting four years ago with now, then the flag of freedom, drenched in blood, had been stricken down from every fort by the hand of treason while now it waved in triumph over those repossessed and reoccupied structures. The country is destined to a future more brilliant, more compact, more free than has been felt for years. He had faith in the judgment and overruling Providence. No rupture would occur between Congress and the President. The Union will be reconstructed in such a manner as will be final for ages to come.

Mr. Colfax left here this morning on the four o'clock train for New York en route to Washington.

The weather is very cold, the mercury fell 10 degrees in three hours, this P. M. at sunset six deg. below zero.

NEW YORK, Jan. 14.

Gen. Sheridan in reply to a letter in the New York News from Gen. Early contradicting the United States official reports of the confederate forces in losses in the Shenandoah Valley, has published a letter in the Crescent, showing that he captured as prisoners more men than Early states to have been his entire force.

RUMORS OF RESCUE OF JEFF. DAVIS.

The Herald's Fort Monroe despatch says: The vigilant detective measures, on the part of the military at Fortress Monroe, instituted in consequence of the rumors of a plot to rescue Jeff. Davis have not been relaxed and the search of all among vessels is still carried on. Though no positive evidence has yet been furnished that the plot really exists. It is considered best to be prepared for it in case it does. A steam tug with soldiers nightly patrols the waters of the harbor, and passes to the Fort are more closely examined than formerly, having to undergo the scrutiny of two sets of sentries instead of one. Jeff.'s health continues good and he has all the comforts allowed him which his limited quarters will permit.

From Boston.

BOSTON, Jan. 14

The bark Fredonia, Capt. Burke, arrived here to-day from Fayal. She reports, January 1st, lat. 41 30, long. 53, fell in with British ship Gratitude, Capt. McStother, from Liverpool, Nov. 18th, for New York, in a leaky condition, and it being heavy weather and the ship laboring hard in high sea, Capt. Burke was requested to lay by and take off the crew and passengers, to which he consented. The crew of the ship comprised 33 persons, and she had 273 emigrant passengers, making a total of 306. Owing to the rough weather the process of transferring so large a number of people from one vessel to another was not completed until the 3d, three days from the time of falling in with the wreck, but they were all finally rescued and brought to this port.

Peabody, whose death was the result of neglect and exposure on board the vessel.
