"*Fresh as a Maiden's Blush*" is the pure, peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the The True Secret of Beauty Fashionable ladies in society understand this.

The Magnolia Balm changes the rustic Country Girl into the City Belle more rapidly than any one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

TELEGRAPH NEWS.

This Morning's Dispatches.

FROM NEW YORK.

A Fierce Riot between Orangemen and Catholics.

New York, July 13.

A sharp riot occurred in the Bowery last evening between a party of Orangemen and some Catholic spectators. The Orangemen had been celebrating the anniversary of the battle of the Boyne. The melee became very fierce and general at one time, but the police managed to restore order after some twenty or thirty persons were injured—none of them very seriously.

A Banker Arrested.

Mr. F. A. Smith, of the firm of Smith & Payne, bankers, in Newark, N. J., has been arrested on a complaint of Jay Cooke & Co. that he purchased of them $6,000 worth of government bonds, for which he gave a check on a bank where, it is alleged, he had no funds. Mr. Smith was too ill to be removed, and a constabulary surveillance is kept over his person.

The Cuban Prisoners.

One of Col. Ryan's Cuban command has escaped from the encampment on Gardiner's Island, and, with two or three others who have become discontented with the way things were arranged, has come on to this city. These men say that they have been generally enjoying themselves on Gardiner's Island, but that ill feeling has been engendered between Col. Courrier and a portion of the recruits from Virginia owing to the colonel's political sentiments. Ryan and Courrier secret themselves at night, and place guards around the vessel to warn them of the approach of suspicious vessels.

Arrival of Vessels with Yellow Fever on Board.

Several vessels have recently arrived in the lower bay with yellow fever on board. They are from Rio Janeiro and Cuban ports.

Indictments against Alleged Wall Street Usurers.

Several indictments are said to have been already found by the grand jury against alleged Wall street usurers, but the examination of witnesses still continues. A bank president was examined recently and stated that he had frequently charged more than the regular rate of interest, but that he and brokers generally considered the law merely a dead letter, the observance of which was an exception to the general rule.

John Siebert Pleads Guilty of Murder in the Second Degree.

John Siebert, who stabbed and killed Jacob Stelwagen in August last in an affray occurring in Stelwagen's saloon on East 14th street, pleaded guilty of murder in the second degree, and was sentenced yesterday by Judge Bedford to imprisonment for life.

The Turf.

Yesterday a match for $1,000 was made between Commodore Vanderbilt's Mountain Boy and Mr. Lovell's American Girl, mile and repeat in harness, to trot on the Union course next Saturday.

MISCELLANEOUS.

Personal

New York, July 13.

A dispatch to the *Herald* from Salem, Mass., says:

George Peabody is quite sick. He spent a few days at Newport, R. I., but the sea air was more damaging than beneficial to his system, and by advice of his physicians he will shortly visit the White Sulphur Springs, in Virginia, where he hopes his constitution will regain its former vigor. He is at present stopping at the residence of his nephew, George Peabody Russell, in Salem. On Wednesday, he will, if his health permits, be present at the dedication of the Peabody Institute in Danvers.

Fatal Shooting Affray.

Louisville, Ky., July 12.

A fatal shooting affray occurred here tonight, resulting in the killing of James Wheeler, by Wash. Ferguson. Wheeler received two shots, causing almost instant death. Ferguson was committed to jail.

Personal.

St. Louis, July 12.

R. M. Field, who has stood for many years at the head of the St. Louis bar, died this evening.

The Baltimore Sængerfest.

Baltimore, July 11.

The prize singing by 18 competing societies took place this evening at Maryland Institute. An audience of about 3,000 persons were present. The pieces generally were admirably well rendered.

The societies acquitting themselves, the most acceptably were the Beethoven Mænnerchor, of New York, the Quartette Club, of Hoboken, the Washington Sængerbund, in the first class, and the Liederkranz, of New York. The Junger Mænnerchor, of Philadelphia, and the Arion, of New York, in the second class. These societies exhibited a remarkable degree of proficiency, and were rapturously applauded by the audience. The other societies also secured much encouragement at the hands of those present.

FROM WASHINGTON.

Meeting of the Columbia Typographical Union.

Washington, July 13.

A special meeting of the Columbia Typographical Union No. 101 was held last night, to consider the question relative to the employment of apprentices. As soon as the meeting was called to order, a motion was made to suspend the rules so as to take up the subject. This required a two-thirds vote which was not obtained. A resolution was then introduced and adopted, to appoint a committee of five to prepare a report upon the apprentice system with the view to a compromise. The report is to be considered at the next regular meeting of the society. This, however, still leaves the Douglass question in dispute.

The Trouble Between the Peace and Indian Commissioners.

The *Herald* special says:

The trouble between the Indian peace commissioner and the Indian commissioner has been removed by the withdrawal of Messrs. Welch and Campbell, the two members of the board who were dissatisfied. These two, it appears, contended that the Indian commissioner could not purchase supplies or expend any of the two million dollar fund without the advice and consent of the board. They said that such was the understanding when they accepted the appointment from the president, but as the rest of the board did not agree with them, they resigned.

Admiral Hoff Asks to be Relieved of his Command, on Account of ill Health.

The *Time's* Washington dispatch says:

Admiral Hoff, now commanding the fleet in Cuban waters, has asked to be relieved on account of ill health, and his request will be granted. Rear Admiral Poore, now in command of the Washington navy yard, will succeed him, and Admiral Dahlgren, now in charge of the bureau of ordnance, will succeed to the command of the navy yard. It is proper to state that there has been no complaint against Admiral Hoff, and the action taken by the department is in response to his own wishes. The navy department has received additional advices of the outrages upon American residents at the Fiji Islands, and the sloop of war, Jamestown, has been ordered to investigate the occurrences, and Rear Admiral Turner has been directed to take prompt measures for the suppression of the outrages.

Declines.

A Washington dispatch reports that Hon. Wm. A. Howard, nominated and confirmed minister to China, will decline the appointment. Since his appointment as minister to China, he has been offered a lucrative position as attorney of a prominent railroad and land company in Michigan, which he will probably accept. It is stated on good authority that J Ross Browne, present minister to China, will not be removed.

FROM CUBA.

Miscellaneous News.

Havana, July 12.

Dispatches from Puerto Principe to the 9th inst., have been received.

The railroad communication to the coast was free of interruption.

The garrison had been re-inforced by a battalion of marines from Spain.

Advices from Nuevitas are to the 10th.

General Puello was in command of the town

The rebels attempted to surprise San Miguel, near Nuevitas, but failed.

The vomito is raging in Remedias with unusually fatal effect.

Col. Trillo reported that he had an engagement with the rebels in the district, in which the latter suffered a heavy loss.

The Spanish casualties were trifling.

Skirmishes have also taken place at Quemado. Cuaba and La Esperanza, which in each case resulted in the dispersion of the rebel bands.

In addition to the seizures already reported 33 estates, the property of alleged rebels has been embargoed.

The steamer City of Mexico sailed this afternoon for Vera Cruz.

BY ATLANTIC CABLE.

The French Emperor and the Corps Legislatif.

Paris, July 12.

As predicted would be the case, in previous despatches, the emperor yields his assent to the legislatif body, the nature of which has just been stated.

No change in the ministry has yet been announced, but the reorganization of the cabinet within a short time is certain.

Throughout the whole of this crisis the emperor has exhibited his peculiar tact and shrewdness. He invited nearly all the deputies in the corps legislatif to a dinner and soiree at St Cloud this week. He has chatted playfully with many of them of all different shades of opinion, giving expression to many of those piquant sayings so attractive to Frenchmen. For instance, to one by whom he had been taken by the buttonhole, he said: "Oh! Monsieur Buffet, you mean to take hold of my coat for fear I may pull back?" To a group of several with whom he was conversing on the situation, he said: "You begin to treat me like the old lion in the fable—trying to cut my nails and take out my tooth, and leave me nothing but my mane, which is considered harmless!" To others he said: "The elections prove clearly that I must choose between empire and revolution—between neither system can individuals be set up." To others he said: "I will give full satisfaction to the liberal aspirations of all parties, but have decided to cease concessions at the boundaries prescribed in the constitution." While the emperor's conduct for the past few days is regarded as droit, it is not considered as likely to stop the agitation of further concessions and reforms.
