Ah Tornados afternoon last night northbound North Tonawanda afternoon in making a deal with the State Department of Transportation regarding the controversial LaSalle Expressway.

First Ward Alderman Thomas E. Strong Jr. through whose ward the super highway would run according to the plan as it stands now, and personally I am disturbed by the fact that LaSalle through the North Tonawanda Common Council must approve the original route of the expressway after ten years of delay. It is understood that the approval came with the understanding that the state would not make any major changes in the expressway.

Mr. Strong said this was "not in favor of deals" and that the State Department of Transportation "will learn that Tornados afternoon can't come to the rescue."

It was also heard he is under investigating the City of Tornados afternoon, North Tornados afternoon and the Tornados afternoon in agreement to work together on the matter of the expressway route.

Mr. Strong said the council will be able to vote a "concessional council" and he asked to arrange a joint meeting with members of the Tornados afternoon Council, the Tornados afternoon and the Niagara Frontier Transportation Authority to discuss the status of the expressway question.

"People are coming on and asking where the road will be built," said Alderman Newton. "All I can tell them is that it is not here yet."

The council's approval was a request to the state from a Tornados afternoon newspaper, it said it would be up to Mr. Ferguson to decide whether the planned joint council would be possible.
