Two Persons May Die of Brains to Women.

Rushing around a curve at almost full speed, the third car of the afternoon rush-hour train collided with another car at the 34th Street station. The train was packed with workers at the evening rush hour and the result was a terrible scene of confusion and mayhem. It was reported that one woman was killed and 20 others were injured. The driver of the train said there were no signal lights and that he was unable to stop the train in time to avoid the accident.

The train was traveling at a high speed when it collided with another car at the 34th Street station. The impact was so severe that the cars were thrown off the tracks and into a ditch. The accident occurred during the evening rush hour, and the train was packed with workers who were returning home from work. It was reported that one woman was killed and 20 others were injured.
