State Denies Permit For Landfill Project

The New York State Water Department of Parks was brought to a halt when Mr. Remick's request for a permit was denied by a group which included the Brooklyn Civic Association and neighborhood councils. The permit had been granted by the Water Department of Parks, an agency which is responsible for the protection of water supplies. The Brooklyn Civic Association and neighborhood councils were pleased with the decision of the Water Department of Parks.

According to Mr. Remick, the decision was made, in part, because of the low water levels in the area. The Water Department of Parks, however, stated that the low water levels were not a factor in the decision.

The Brooklyn Civic Association and neighborhood councils were pleased with the decision of the Water Department of Parks. They stated that the permit was granted by a group which included the Brooklyn Civic Association and neighborhood councils.

Catholic Hospital Service Costs Rise To A New High

Operational costs of the 13 Catholic hospitals, general and special hospitals, are rising to a new high.

First, the Holy Cross Hospital, 13 New York State Street, which is affiliated with the New York Catholic Charities, increased its costs from $10.9 million in the fiscal year ended June 30, 1966, to $11.8 million in the fiscal year ended June 30, 1967. The increase was attributed to the higher costs of medical care, including wages and salaries, and the increased cost of medicine.

Second, the Holy Name Hospital, 100-05 Frank Avenue, Queens, which is affiliated with the New York Catholic Charities, increased its costs from $10.5 million in the fiscal year ended June 30, 1966, to $11.2 million in the fiscal year ended June 30, 1967. The increase was attributed to the higher costs of medical care, including wages and salaries, and the increased cost of medicine.

These increases in operational costs are expected to continue, as the cost of medical care continues to rise.

Cardinal Spellman and Governor Rockefeller are expected to sign a bill which will be a major contribution to the cost of medical care. The bill, which is expected to be passed by the New York State Legislature, will provide for a 10% increase in the state's funding for medical care.

The bill is expected to be passed by the New York State Legislature, and it is expected to be signed by Cardinal Spellman and Governor Rockefeller.
