**Blair Plan Calls For 10-Year Job**

By JAMES HEAVY

Binghamton's master planners today urged publilc officials to begin thinking at once of the next several decades to revitalize the heart of the city.

The resulting report would be made next month by an outside consultant who would recommend programs for citywide improvements.

The proposals, 11 months in the making, were re-vealed today.

Total investment required by the plan is estimated now at roughly $50,000,000.

The amount would come in various stages from these sources: $1,500,000 from private investment.

$1,000,000 from the State Executive Council.

$1,000,000 from the County Government.

$6,000,000 from the City Government, including $8,000,000 athletic cashed for bond issue in connection with the North Shore Drive project.

The Blair plan was unveiled at a meeting of government officials and civic leaders, conducted by Mayor John J. Burns, right.

The Blair plan, of Binghamton, B. 8., was voted for by the plan-

ning job by Broome County Planning Board, acting on behalf of

The city.

For the following year the program would equal the $4,000,000 sought by former Presi-dent Eisenhower, and for peacetime this must be

controlled within the limits of the area's new needs—would be

made at the early stages of the long-range renewal program, serving in a respect for the point.

The Blair plan would achieve the dream of 100,000 people, and would require the relocation of

and present of millions—of dollars will be made on behalf of

The city.

**Dramatic Revamping Of Long-Term Aid Plan Asked by JFK**

Washington—(AP)—President Kennedy asked Con-gress today for a drastically revamped long-term federal and private spending program, making possible the transformation overhaul since the Marshall Plan started in 1948.

Other proposals include a series of postwar and private spending of more than $80,000,000 in the city's densely built-up core.

The remaking of the downtown area would take place in stages between 1961 and 1962.

The higher industrial or public-money-for-private spending policy is expected to lead to a series of phases of the long-range renewal program, serving in a respect for the point.

The city would act the dream of 100,000 people, and would require the relocation of

The city.

**Ollie's pencils and scribbles on the Blair report appear on page 42.**
