Super Buses Are Awarded to 5 More Routes

120- PASSENGER VEHICLES ADDED FOR NEXT WEEK

10 City Lines Will Have All New Equipment by Wednesday

THE BOROUGH President Burke, at the present time being absent for the holidays, was represented by Borough President John O'Dwyer at the City Hall hearing yesterday where several City bus lines were shown a way out of their financial weakness with the award of extra buses. The two lines are the North Shore and the Flushing Area Lines. The contract call for the purchase of 120 passenger cars to replace their present buses.

The new buses will be required to run between Midtown and Flushing and other points near the Flushing area. The Flushing Area Line will get 80 of the new 5-ton equipment, while the North Shore Line will get 40 of the new equipment.

The City will give the Flushing Area Line a one-year lease of the buses, while the North Shore Line will get a two-year lease. The lease will cost the City $325 a month for each bus.

The City has already awarded 200 new buses to the Woodside and the Rockaway Lines. The present City buses will be replaced as the new ones are delivered.

THE VICTIMS of the holdup at the Framed Pictures store, 75-67 Broadway at 14th street, were identified yesterday as William H. Cross, 50, and his son, Edward E. Cross, 21. The father is employed as a handyman at Grace Church and the son is a student at the College of the City of New York.

The two were shot to death by a bandit who entered the store at about 4:30 p.m. yesterday. The bandit got $150 from the store register and escaped.

30 PERSONS were injured in a 12-car pileup at 14th street and Broadway at about 5:45 p.m. yesterday. All the injuries are minor and were sustained by passengers on the express subway. The subway train left the tracks as it rounded the corner at the 14th street station and rammed into another express train stopped at the station.

RENO, Nev. — Reno's "earthquake" this morning, the result of the explosion of a gas line, will cost the City of Reno a million dollars. The explosion was caused by the breaking of a gas line in the area being flooded with tide waters during the high-water season.

The explosion occurred at 10:15 p.m. last night and caused the destruction of several buildings. The gas line was located in a sewage disposal plant and was carrying gas to a power plant.

The explosion also caused the destruction of several houses in the area and caused many injuries to those who were in the area at the time of the explosion. The damage is estimated at $1,000,000.
