Refined Women Give This the Preference

The latest in hair health and beauty, to which I have been so often referred, is the use of *Neutrone Prescription n99* in the treatment of poor hair. This preparation is a cure for gray hair, and has been found to be very effective.

The *Neutrone Prescription n99* is a mixture of various ingredients, including Dandruff and eczema brown soap, which together form a powerful and effective treatment for gray hair. It contains a variety of medicinal herbs, such as juniper and rosemary, which have been shown to promote healthy hair growth.

The *Neutrone Prescription n99* is available at O. B. Ensor Store, where you can purchase it for just $1.00. I urge you to try it for yourself and see the difference it can make in your hair.

For further information, please contact me at 735 Osborne St., Sandusky, Ohio.
