THREE STRIKING PERSONALITIES PROMINENT AT PRESENT

THomas A. Edison will celebrate his seventieth birthday on February 11, at his home in West Orange, at noon, with his wife and family, and with many friends and business associates. Dr. Lewis G. Tappan, president of the Edison Electric Light Co., will be the principal speaker. It is believed that this will be Edison's last public appearance in his life.

The inventor will not be in the city for the centennial exercises, as he is on a tour of the southern States, visiting important electric plants in operation.

Edison, who is the most prominent figure in the electrical world, is also one of the most prominent in the world of education. He was associated with Mr. Edison in West Orange in 1876, and has been associated with him ever since. His name is known throughout the world, and he is one of the most influential men in the country.

A great many important problems have been solved by Edison, and many of his inventions have been of great benefit to mankind. He has been a leader in the development of the telegraph, the telephone, the electric light, and many other devices. He is the founder of the Edison Electric Light Co., which is one of the largest and most successful companies in the world.

Edison is also one of the most successful business men in the world. He has been a leader in the development of the electric light, and has been responsible for many of the improvements in the industry. He has been a leader in the development of the electric motor, and has been responsible for many of the improvements in the industry. He has been a leader in the development of the electric railway, and has been responsible for many of the improvements in the industry.

Edison is a man of great ability, and a man of great vision. He has been one of the greatest leaders in the world, and has been one of the greatest thinkers of the age.

Edison is a man of great energy, and a man of great determination. He has been one of the greatest leaders in the world, and has been one of the greatest thinkers of the age.
